Beginning at the point of intersection of the northwesterly side line of Victoria Road and the southwesterly side line of Radcliffe Road, thence northeasterly, northerly and northwesterly on said southwesterly side line of Radcliffe Road on a curve to the left with a radius of 25.0 feet a distance of 45.29 feet to a point of tangency in said southwesterly side line of Radcliffe Road, thence northwesterly on said southwesterly side line of Radcliffe Road a distance of 265.96 feet to a point of curve in said southwesterly side line of Radcliffe

Road, thence northwesterly, westerly and southwesterly on said southwesterly side line of Radcliffe Road on a curve to the left with a radius of 20.0 feet a distance of 29.33 feet to the point of intersection of said southwesterly side line of Radcliffe Road and the southeasterly side line of Edgehill Road, thence northeasterly on said southeasterly side line of Edgehill Road a distance of 80.44 feet to the point of intersection of said southeasterly side line of Edgehill Road and the northeasterly side line of Radcliffe Road, thence southwesterly, southerly and southeasterly on said northeasterly side line of Radcliffe Road on a curve to the left with a radius of 20.0 feet a distance of 33.50 feet to a point of tangency in said northeasterly side line of Radcliffe Road, thence southeasterly on said northeasterly side line of Radcliffe Road a distance of 283.61 feet to a point of curve in said northeasterly side line of Radcliffe Road, thence southeasterly, easterly, and northeasterly on said northeasterly side line of Radcliffe Road on a curve to the left with a radius of 20.0 feet a distance of 26.60 feet to the point of intersection of said northeasterly side line of Radcliffe Road and the northwesterly side line of Victoria Road, thence southwesterly on said northwesterly side line of Victoria Road a distance of 88.76 feet to the point of beginning as shown on a plan on file in the office of the Town Clerk, Arlington, Mass. entitled: "Street plan Radcliffe Road, Arlington, Mass., Hor. Scale 1 in.=40 ft., Ver. scale 1 in.=6 ft., February 29, 1928, Fred A. Joyce, Surveyor, Belmont."

Article 24 To see if the Town will accept the laying out of a Town way from Brookdale Road to Edgehill Road, substantially in the location of the private way known as Johnson Road, as made and filed in the office of the Town Clerk by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; establish said way; make an appropriation for said laying out and the construction of said way; determine in what manner the money shall be raised; or take any action relating thereto.

Said way as so laid out is bounded and described, as follows:

First Section

Beginning at the point of intersection of the northwesterly side line of Brookdale Road and the southwesterly side line of Johnson Road, thence northeasterly, northerly and northwesterly on said southwesterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 33.05 feet to a point of tangency in said southwesterly side line of Johnson Road, thence northwesterly on said southwesterly side line of Johnson Road a distance of 238.53 feet to a point of curve in said southwesterly side line of Johnson Road, thence northwesterly, westerly and southwesterly on said southwesterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 28.27 feet to the point of intersection of said southwesterly side line of Johnson Road and the southeasterly side line of Victoria Road, thence northeasterly on said southeasterly side line of Victoria Road a distance of 81.00 feet to the point of intersection of said southeasterly side line of Victoria Road and the northeasterly side line of Johnson Road, thence southwesterly, southerly, and southeasterly on said northeasterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 34.56 feet to a point of tangency in said northeasterly side line of Johnson Road, thence southeasterly on said northeasterly side line of Johnson Road a distance of 232.42 feet to a point of curve in

said northeasterly side line of Johnson Road, thence southeasterly, easterly and northeasterly on said northeasterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 29.78 feet to the point of intersection of said northeasterly side line of Johnson Road and the northwesterly side line of Brookdale Road, thence southwesterly on said northwesterly side line of Brookdale Road a distance of 80.27 feet to the point of beginning.

Second Section

Beginning at the point of intersection of the northwesterly side line of Victoria Road and the southwesterly side line of Johnson Road, thence northeasterly, northerly and northwesterly on said southwesterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 34.56 feet to a point of tangency in said southwesterly side line of Johnson Road, thence northwesterly on said southwesterly side line of Johnson Road a distance of 2.55 feet to a point of curve in said southwesterly side line of Johnson Road, thence continuing northwesterly on said southwesterly side line of Johnson Road on a curve to the left with a radius of 407.41 feet a distance of 107.88 feet to a point of tangency in said southwesterly side line of Johnson Road, thence continuing northwesterly on said southwesterly side line of Johnson Road a distance of 145.57 feet to a point of curve in said southwesterly side line of Johnson Road, thence northwesterly, westerly and southwesterly on said southwesterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 21.98 feet to the point of intersection of said southwesterly side line of Johnson Road and the southeasterly side line of Edgehill Road, thence northeasterly on said southeasterly side line of Edgehill Road a distance of 28.08 feet to an angle point in said southeasterly side line of Edgehill Road, thence continuing northeasterly on said southeasterly side line of Edgehill Road a distance of 60.42 feet to the point of intersection of said southeasterly side line of Edgehill Road and the northeasterly side line of Johnson Road, thence southwesterly, southerly and southeasterly on said northeasterly side line of Johnson Road on a curve to the left with a radius of 25.0 feet a distance of 46.41 feet to a point of tangency in said northwesterly side line of Johnson Road, thence southeasterly on said northwesterly side line of Johnson Road a distance of 109.65 feet to a point of curve in said northwesterly side line of Johnson Road, thence continuing southeasterly on said northwesterly side line of Johnson Road on a curve to the right with a radius of 447.41 feet a distance of 118.48 feet to a point of tangency in said northeasterly side line of Johnson Road, thence continuing southeasterly on said northeasterly side line of Johnson Road a distance of 15.23 feet to a point of curve in said northeasterly side line of Johnson Road, thence southeasterly, easterly, and northeasterly on said northeasterly side line of Johnson Road on a curve to the left with a radius of 20.0 feet a distance of 28.27 feet to the point of intersection of said northeasterly side line of Johnson Road, and the northwesterly side line of Victoria Road, thence southwesterly on said northwesterly side line of Victoria Road a distance of 81.00 feet to the point of beginning as shown on a plan on file in the office of the Town Clerk, Arlington, Mass. entitled: "Street Plan, Johnson Road, Arlington, Mass., Hor. Scale 1 in.= 40 ft., Ver. scale 1 in.=6 ft., February 29, 1928, Fred A. Joyce, surveyor, Belmont."

Article 25. To see if the Town will accept the laying out of a Town way from Columbia Road to Winchester Road, substantially in the lo-

cation of the private way known as Bradley Road, as made and filed in the office of the Town Clerk by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; establish said way; make an appropriation for said laying out and the construction of said way; determine in what manner the money shall be raised; or take any action relating thereto.

Said way as so laid out is bounded and described, as follows:

Beginning at the point of intersection of the easterly side line of Winchester Road and the northeasterly side line of Bradley Road, thence southerly and southeasterly on said northeasterly side line of Bradley Road on a curve to the left with a radius of 25 feet a distance of 34.13 feet to a point of tangency on said northeasterly side line of Bradley Road, thence southeasterly on said northeasterly side line of Bradley Road a distance of 220.91 feet to a point of curve in said northeasterly side line of Bradley Road, thence southeasterly, easterly and northeasterly on said northeasterly side line of Bradley Road on a curve to the left with a radius of 25 feet a distance of 55.31 feet to the point of intersection of said northeasterly side line of Bradley Road and the westerly side line of Columbia Road, thence southerly on said westerly side line of Columbia Road on a curve to the left with a radius of 423.1 feet a distance of 90.84 feet to a point of tangency in said westerly side line of Columbia Road, thence continuing southerly on said westerly side line of Columbia Road a distance of 48.68 feet to the point of intersection of said westerly side line of Columbia Road and the southwesterly side line of Bradley Road, thence northerly and northeasterly on said southwesterly side line of Bradley Road on a curve to the left with a radius of 75 feet a distance of 53.49 feet to a point of tangency in said southwesterly side line of Bradley Road, thence northwesterly on said southwesterly side line of Bradley Road a distance of 271.43 feet to a point of curve in said southwesterly side line of Bradley Road, thence northwesterly, westerly and southwesterly on said southwesterly side line of Bradley Road on a curve to the left with a radius of 25 feet a distance of 44.45 feet to the point of intersection of said southwesterly side line of Bradley Road and the southeasterly side line of Winchester Road, thence northeasterly on said southeasterly side line of Winchester Road a distance of 92.02 feet to the point of beginning as shown on a plan on file in the office of the Town Clerk, Arlington, Mass. entitled: "Plan and Profile of Bradley Road, Petitioned for by Wm. S. Fairchild, Arlington, Mass., Scale Hor. 1″=40′, Ver. 1″=6′, Aug. 1926, C. H. Gannett, C. E., 53 State St., Boston."

Article 26. To see if the Town will accept the laying out of a Town way from Florence Avenue to Oakland Avenue, substantially in the location of the private way known as George Street, as made and filed in the office of the Town Clerk by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; establish said way; make an appropriation for said laying out and the construction of said way; determine in what manner the money shall be raised; or take any action relating thereto.

Said way as so laid out is bounded and described, as follows:

Beginning at the point of intersection of the southeasterly side line of Florence Avenue and the northeasterly side line of George Street,

thence southeasterly on said northeasterly side line of George Street a distance of 786.60 feet to the point of intersection of said northeasterly side line of George Street and the southeasterly side line of Oakland Avenue, thence southwesterly on said southeasterly side line of Oakland Avenue a distance of 40.0 ft. to the point of intersection of said southeasterly side line of Oakland Avenue and the southwesterly side line of George Street, thence northwesterly on said southwesterly side line of George Street a distance of 788.98 ft. to the point of intersection of said southwesterly side line of George Street and the southeasterly side line of Florence Avenue, thence northeasterly on said southeasterly side line of Florence Avenue a distance of 40.07 ft. to the point of beginning as shown on a plan on file in the office of the Town Clerk, Arlington, Mass. entitled: "Plan and profile showing proposed lines and grades for George Street, Arlington, Hor. Sc. 40′=1″, Ver. Sc. 6′=1″, Chas. J. Elliot, Eng'r. & Surveyor, Nov. 5, 1910."

Article 27. To see if the Town will accept the laying out of a Town way from Oakland Avenue to the Concord Turnpike, substantially in the location of the private way known as George Street, as made and filed in the office of the Town Clerk by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments; establish said way; make an appropriation for said laying out and the construction of said way; determine in what manner the money shall be raised; or take any action relating thereto.

Said way as so laid out is bounded and described, as follows:

Beginning at the point of intersection of the northeasterly side line of the Concord Turnpike and the southwesterly side line of George Street, thence northwesterly on said southwesterly side line of George Street a distance of 1447.0 feet more or less to the point of intersection of said southwesterly side line of George Street and the southeasterly side line of Oakland Avenue, thence northeasterly on said southeasterly side line of Oakland Avenue a distance of 40.0 feet to the point of intersection of said southeasterly side line of Oakland Avenue and the northeasterly side line of George Street, thence southeasterly on said northeasterly side line of George Street a distance of 1503.61 feet more or less to the point of intersection of said northeasterly side line of George Street and the northeasterly side line of the Concord Turnpike, thence northwesterly on said northeasterly side line of the Concord Turnpike on a curve to the right with a radius of 3254.18 feet a distance of 70.0 feet more or less to the point of beginning as shown on two plans on file in the office of the Town Clerk, Arlington, Mass. both entitled: "Plan and Profile showing proposed lines and grades for George St., Arlington, Hor. Sc. 40′=1″, Ver. Sc. 6′=1″, Chas. J. Elliot, Eng'r. & Surveyor Nov. 5, 1910."

CONSTABLE'S RETURN

COMMONWEALTH OF MASSACHUSETTS

Arlington, February 27, 1950

Middlesex, ss.

By virtue of this warrant I have notified and warned the legal voters of the Town of Arlington to meet at the times and places and for the purposes herein specified by causing a printed attested copy of said warrant to be left at every dwelling house in the town previous to the day of the meeting for the election of officers and by posting an attested copy of said warrant at the doors of the Town Hall and in two or more conspicuous places in each of the fourteen precincts of the Town, seven days at least before the day of said meeting. A notice of the times, places and objects of the meetings was published in the local papers.

ARCHIE F. BULLOCK

Constable of the Town of Arlington, Massachusetts

ANNUAL TOWN ELECTION, MARCH 6. 1950

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections, met at the polling places designated for the several precincts in said Town on Monday, the sixth day of March, 1950, at seven o'clock in the forenoon.

After the records of the canvass and counting of the votes by the election officers was completed, all ballots cast were enclosed in containers, each of which was sealed in such manner as to effectively lock the containers, and were directed by the Town Clerk to be impounded at the Police Station.

The Registrars of Voters and Mr. Harry J. O'Reilly assisted in the tabulation of the returns from each of the precincts and the total result of the canvass of the ballots was announced, as follows:

All total tally sheets and other records relating to such annual election are to be preserved in the vault of the Town Clerk during the period required by law and all ballots, cast and not cast, are to be retained in the custody of the Town Clerk and upon the expiration of the period fixed for their preservation they shall be caused to be destroyed.

ATTEST:

JAMES J. GOLDEN,
Town Clerk.

The result of the count of the votes cast at the town election was forwarded to the Secretary of State.

In accordance with Section 61 of Chapter 51 of the General Laws, the return of registered voters at the close of registration on February 14, was forwarded to the Secretary of State.

In accordance with Section 132 of Chapter 54 of the General Laws, the total number of names of voters checked on the voting lists in each precinct was forwarded to the Secretary of State.

In connection with the work of the Department of Corporations and Taxation, a list of the town officials was forwarded to the Director of Accounts.

ANNUAL TOWN MEETING, MARCH 20, 1950

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Arlington by a constable of said town and notices sent by mail by the Town Clerk at least seven days before the day of meeting to the town meeting members elected and qualified to act in town meetings in Arlington, under the provisions of Chapter 43-A of the General Laws, as amended, and published in the local newspapers, as required by the town's by-laws, the town meeting members so qualified met in the Robbins Memorial Town Hall in said town on Monday evening, March 20, 1950. The Warrant calling the meeting was the notice sent by mail by the Town Clerk.

Lists of the duly qualified town meeting members were used at the entrances of the meeting place and were in charge of Philip T. Robinson and James E. Sweeney. The lists contained the names of two hundred and fifty-five (255) town meeting members qualified to participate in and vote in town meetings in Arlington.

The check lists filed with the Town Clerk at the close of the meeting showed that two hundred and twenty-six (226) members and eight (8) members-at-large attended the meeting.

Philip H. Burt, stenographer, was sworn by the Town Clerk to the faithful performance of his duties.

The meeting was called to order at 8 o'clock P.M. by the Moderator, Mr. Harold E. Magnuson, who declared a quorum present.

The town meeting members, not previously sworn, were thereupon sworn by the Moderator.

The Town Clerk read the call for the meeting and the Constable's return thereon, the reading of the remainder of the Warrant being waived by consent of the meeting.

There being no objection to the request of J. Howard Hayes of the Finance Committee, permission was granted Mr. Frost of the Board of Selectmen; Mr. Nicksay, the Secretary of the Board of Selectmen; Messrs. O'Neill and Rawson of the Board of Public Works; Messrs. Hauser and Cooledge of the Board of Assessors; Mr. Hurd of the Board of Park Commissioners; Messrs. Flynn and Mansfield of the Personnel Board; Mr. Morris, Executive Secretary of the Personnel Board; Messrs. O'Reilly, Fish, Daniels, Wise, Halpin, Farrow, Robson and Rutherford of the Finance Committee, and Mr. Smith, Executive Secretary of the Finance Committee, to sit with him during the meeting.

On motion of J. Howard Hayes of the Finance Committee, duly seconded, it was

Voted: That if all the business of the meeting as set forth in the Warrant is not disposed of at this session, when the meeting adjourns, it adjourn to Wednesday evening, March 22, 1950, at 8 o'clock.

Voted: That the committee appointed under vote of the town passed March 22, 1948, to procure plans and estimates for the construction of a gymnasium and/or other facilities at the Junior High School Center be discharged.

On motion of George A. Harris, duly seconded, it was

Voted: To reconsider the vote of the meeting of March 20, 1950, that the report of the committee appointed to study, consider and make recommendations relative to salaries of elected town officials be received and the committee be discharged.

George A. Harris offered the following substitute motion for the original motion of the committee, which was duly seconded:

> "That the committee report on salaries of elected town officials be received and placed on file; that two additional Town Meeting Members be appointed to said committee by the Moderator and the augmented committee be instructed to report its recommendations to the Finance Committee by December 29, 1950, for inclusion in the budget article, or articles, of the next Annual Town Meeting, if said Finance Committee approves any or all recommendations; and that the committee also report to the 1951 Town Meeting".

On being put to a vote, the Moderator declared the motion to amend carried.

Thereupon, it was

Voted: That the committee report on salaries of elected town officials be received and placed on file; that two additional Town Meeting Members be appointed to said committee by the Moderator and the augmented committee be instructed to report its recommendations to the Finance Committee by December 29, 1950, for inclusion in the budget article, or articles, of the next Annual Town Meeting, if said Finance Committee approves any or all recommendations; and that the committee also report to the 1951 Town Meeting.

On motion of J. Howard Hayes of the Finance Committe, duly seconded, it was

Voted: To adjourn.

The meeting was declared adjourned by the Moderator at 11:05 P.M.

CONSTABLE'S RETURN

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

Arlington, Sept. 15, 1950

By virtue of this warrant I have notified and warned the legal voters of the Town of Arlington to meet at the time and places and for the purpose herein specified by causing a printed attested copy of said warrant to be left at every dwelling house in the town previous to the day of the meeting for the nomination of candidates of political parties and by posting an attested copy of said warrant at the doors of the Town Hall and in two or more conspicuous places in each of the fourteen precincts of the Town, seven days at least before the day of said meeting. A notice of the time, places and object of the meeting was published in the local papers.

FRANK K. NICKSAY
Constable of the Town of Arlington, Massachusetts

In pursuance of the foregoing warrant, the inhabitants of the Town of Arlington, qualified to vote in Primaries, met in the polling places designated for the several precincts in said Town on Tuesday, the nineteenth day of September, 1950, at ten o'clock in the forenoon.

The Registrars of Voters and Mr. Harry J. O'Reilly assisted in the tabulation of the returns from each of the precincts, upon completion of which the total result of the canvass of the ballots was announced, as follows:

SPECIAL TOWN MEETING, OCTOBER 2, 1950

WARRANT

THE COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To the Constables of the Town of Arlington, in said County:

GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, to meet in the

TOWN HALL

in said Town on

MONDAY, THE 2nd DAY OF OCTOBER, 1950

at 8 o'clock P. M., at which time and place the following articles are to be acted upon and determined exclusively by town meeting members, in accordance with, and subject to, the referenda provided for by Chapter 43A of the General Laws.

Article 1 To hear and act upon the reports of the Finance and other committees heretofore appointed.

Article 2. That an act be submitted to the General Court, entitled: An act increasing the Board of Selectmen to five members, providing for the appointment by said Board of a Town Manager whose duties shall be to supervise and direct the administration of all departments, commissions, boards and offices, except the Board of Selectmen, the School Committee, Election Officers and the Registrars of Voters. This act shall be similar in substance to Chapter 597, Acts of General Court of Massachusetts, 1949.

(Inserted at the request of one hundred (100) registered voters)

Article 3. To see if the Town, pursuant to the authority contained in Chapter 639 of the Acts of 1950 of the Massachusetss General Court, will vote to amend the By-Laws of the Town by adding thereto a new Article to be known as Article 16, relating to Civil Defense; make an appropriation or appropriations to be expended as provided in said By-Laws, if so adopted; determine in what manner the money shall be raised and expended; or take any action relating thereto; said new By-Laws to read substantially as follows:—

ARTICLE 16

CIVIL DEFENSE

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "department"). It shall be the function of the department to have charge of civil defense as defined in Section 1, Chapter 639, Acts of 1950 and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations

promulgated thereunder, and to exercise any authority delegated to it by the Governor under said Chapter 639.

SECTION 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director") who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration and operation of the department, subject to the direction and control of the appointing authority, and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks and other assistants as the work of the department may require and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of Chapter 639, Acts of 1950.

The director shall also have authority to appoint district coordinators and may accept and may receive, on behalf of the town, services, equipment, supplies, materials or funds by way of gift, grant or loan, for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants or loans.

SECTION 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECTION 4. POLICE AID TO OTHER CITIES AND TOWNS IN EVENT OF RIOTS OR OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

SECTION 5. TERMINATION OF BY-LAW. This By-Law shall remain in force during the effective period of Chapter 639, Acts of 1950 and any act in amendment or continuation thereof or substitution therefor.

SECTION 6. DEFINITION. All references to Chapter 639, Acts of 1950, as now in force, shall be applicable to any act or acts in amendment or continuation of or substitution for said Chapter 639.

Article 4. To see if the Town, through its Town Meeting Members, will recommend, determine in what manner any appropriations necessary shall be raised; or take any action relating to the adoption of the following resolution:—

Resolved, that it is the sense of the Town Meeting to recommend to the Board of Selectmen that Members of the Police Department be excused from duty for one day out of every five, without loss of pay.

Article 5. To see if the Town will make an additional appropriation

or appropriations to be added to the Reserve Fund and expended under the direction of the Finance Committee; determine in what manner the money shall be raised or take any action relating thereto.

(Inserted at the request of the Finance Committee)

Article 6. To see if the Town will make an appropriation for the Maintenance of the Water System; determine in what manner the money shall be raised and expended, or take any action relating thereto.

(Inserted at the request of the Board of Public Works)

Article 7. To see if the Town will make an appropriation for the Maintenance of Highways and Bridges; determine in what manner the money shall be raised and expended, or take any action relating thereto.

(Inserted at the request of the Board of Public Works)

Article 8. To see if the Town will vote to accept the gift set forth under Clause 1 of the will of the late Ida F. Robbins, to be expended under the direction of the School Committee, or take any action relating thereto.

(Inserted at the request of the School Committee)

Article 9. To see if the Town will vote to accept the gift set forth under Clause 7 of the will of the late Ida F. Robbins, to be expended under the direction of the Trustees of Robbins Library; or take any action relating thereto.

(Inserted at the request of the Trustees of Robbins Library)

Article 10. To see if the Town will vote to accept the gift set forth under Clause 33 of the will of the late Ida F. Robbins; determine the department under whose direction the gift shall be expended; or take any action relating thereto.

Article 11. To see if the Town will vote to accept the gift set forth under the will of the late M. Helen Teele, to be expended under the direction of the Trustees of Robbins Library; or take any action relating thereto.

(Inserted at the request of the Trustees of Robbins Library)

Article 12. To see if the Town will make an additional appropriation or appropriations for public welfare, including Aid, General Relief and Old Age Assistance; provide for all or any of these appropriations by borrowing money under authority of and in accordance with the provisions of Chapter 49 of the Acts of 1933, as amended, or by any other provision of law, or by transfer or otherwise; or take any action relative to all or any of the foregoing.

Article 13. To see if the Town will amend the Classification Plan known as Schedule A, under Table I and Table II, of Article 7C, of the By-Laws by adding or deleting the following classifications:

Asphalt Raker and Public Works Laborer—Grade IX, to be added
Principal Clerk (Welfare)—Grade VII, to be added

Senior Bookkeeper—Grade VIII, to be added
Clerk, P-T, to be added
Collector of Parking Meter Revenue, P-T, to be added
Leader of Recreational Handicraft, P-T, to be added
Detective Sergeant—Grade XVI, to be deleted

(Inserted at the request of the Personnel Board)

Article 14. To see if the Town will amend the Classification Plan known as Schedule A, under Table I and Table II, of Article 7C, of the By-Laws by re-allocating certain classifications to the salary grades as set forth in the following list:

Board of Selectmen—Welfare Department—Dental and Medical Clinic Assistant, P-T, re-allocated to Grade II
Board of Public Works—Public Works Foreman, Grade X, re-allocated to Grade XI

(Inserted at the request of the Personnel Board)

Article 15. To see if the Town will vote to amend Table I of Schedule A of the Classification Plan, and Table I of Schedule B of the Pay Plan as established by Article 7C of the By-Laws of the Town, by striking out the words and figures—Minimum—$1352.00, Step 1—$1430.00, Step 2—$1508.00, Step 3—$1596.00, Maximum $1664.00 in Grade II, and to insert in place thereof the words and figures—Minimum—$1430.00, Step 1—$1508.00, Step 2—$1586.00, Step 3—$1664.00, Maximum—$1742.00; and under the additional amount to be paid laborers on garbage and ashes, by striking out the figure $.05 and inserting in place thereof the figure $.06.

(Inserted at the request of the Personnel Board)

Article 16. To see if the Town will amend the Classification Plan known as Schedule A, under Table I and Table II, of Article 7C, of the By-Laws by striking out the present title and inserting in place thereof a new title, set forth as follows:

Foreman Painter—Grade XIV, to Foreman of Paint, Carpenter and Blacksmith Shops—Grade XIV

(Inserted at the request of the Personnel Board)

Article 17. To see if the Town will amend its Zoning By-Law by inserting a new section as follows:—

"Section 12A. Location of Private Garages." Private garages shall be located not less than five feet from any other building except that such garages of first or second class fire protected construction may be located adjacent to any other building.

Article 18. To see if the Town will amend its Zoning By-Law in the following respects:

1. By striking out in the Schedule of Heights and Area Regulations under the heading "Front Yard Minimum Depths in Feet," the note reading "these requirements also apply to garages," and substituting in place thereof the following new note: "These front yard set back requirements of 25 feet for Residence A and 20 feet for Residence B Districts also apply to garages,"; and also under the same heading by striking out the sentence reading "No building on the same lot shall be less than 15 feet away from any other building in Residence A, B & C Districts, all other Districts not less than 10 feet," and substituting in place thereof the following sentence—"No building on the same lot shall be less than 15 feet from any other building in Residence A, B & C districts; in all other districts not less than 10 feet. This does not apply to private garages: for such regulations see Section No. 12A.

2. By striking out section 15-B entitled "Parking Spaces" and substitu-

ting in place thereof the following new paragraph 15-B. Parking Spaces. In the Residence C. Districts, automobile parking spaces shall be required off-street on land associated with each residential structure containing dwellings for three or more families erected after the date of adoption of this amendment, accessible and usable spaces to be available in the ratio of at least 250 square feet of such space (open or covered) for each dwelling unit in each such stucture. Said off-street parking spaces shall not be within 15 feet of any street line nor in the front yard of any building unless within an underground or basement garage not opening directly onto the frontage street. All parking facilities so provided are to be for the exclusive use of residents of the property or their guests.

3. By striking out section 15-3 entitled "Parking Spaces " and substituting in place thereof the following new paragraph 15-3. Parking Spaces. In the Residence D districts, automobile parking spaces shall be required off-street on land associated with each residential structure containing dwellings for three or more families erected after the date of adoption of this amendment, accessible and usable spaces to be available in the ratio of at least 250 square feet of such space (open or covered) for each dwelling unit in each such structure. Said off-street parking spaces shall not be within 15 feet of any street line nor in the front yard of any building unless within an underground or basement garage not opening directly onto the frontage street. All parking facilities so provided are to be for the exclusive use of residents of the property or their guests.

Article 19. To see if the Town will amend its Zoning By-Law by altering the Zoning Map therein referred to so as to include in the Industrial District the area now included in the Residence B District and being bounded and described as follows:

Beginning at a point on the center line of Garden Street, said point being 100 ft. easterly of the easterly side line of Mystic Street and on the boundary line of the business A district, thence southeasterly on said center line of Garden Street on a curve to the right with a radius of 120 ft. a distance of 178 ft. more or less to a point of tangency in said center line of Garden Street, thence continuing southeasterly on said center line of Garden Street a distanc of 40 ft. more or less to a point opposite the southerly boundary line of lot 35, thence westerly across said Garden Street and on said southerly boundary line of lot 35 a distance of 119.4 feet more or less to the boundary line of the business A district, thence northerly on said boundary line of the business A district and by the westerly boundary line of lots 35, 36, 37, 38, 39 and 40, and through Garden Street, a distance of 155 ft. to the point of beginning.

Article 20. To see if the Town will vote an additional appropriation to be added to the Street Lighting budget for the purpose of providing additional lighting to the Town during the 1950 Xmas Holidays; determine in what manner the funds shall be raised; or take any action relating thereto.

(Inserted at the request of one hundred (100) registered voters)

Article 21. To see if the Town will vote to authorize the Board of Selectmen to release to the owner of land on Warren Street, all rights and agreements acquired by the Town under a certain instrument dated February 14, 1931, and recorded in Middlesex South District Registry of Deeds, Book 5540, page 422; wherein the owner was prohibited from

erecting any building or structure within a 10 foot strip along said Warren Street; or take any action relating to all or any of the foregoing.
(Inserted at the request of one hundred (100) registered voters)

Article 22. To see if the Town will vote to amend Table I of Schedule B of the Pay Plan as established by Article 7-C of the By-Laws of the Town, by striking out the figures $3200.00 in Grade XII of said Table and substituting therefor the figures $3304.00 or to take any action with reference to changing the salary as now set forth and established in the aforementioned Grade.

To see if the Town will make an appropriation to defray Town obligations made necessary by changes in the Pay Plan under Article 7-C of the By-Laws voted at this meeting.
(Inserted at the request of one hundred (100) registered voters)

Article 23. To see if the Town will take any action relative to providing Special Compensation for the period beginning April 1, 1950, and ending December 31, 1950, to enable elected and appointed officers and employees, exclusive of school teachers, of the Town, to meet the present abnormal increase in the cost of living; determine in what manner such compensation, if any, shall be raised and expended; or take any action relative thereto.
(Inserted at the request of one hundred (100) registered voters)

And you will notify and warn the voters of the Town of Arlington to meet at the time and place herein specified by leaving at every dwelling house in the Town a printed copy of this Warrant, and also by posting a copy of the same at the doors of the Town Hall, and in a conspicuous place in each of the fourteen precincts of the Town, seven days at least prior to the time of said meeting.

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, on or before said day and hour of meeting.

Given under our hands, at said Arlington, this fifth day of September, in the year of our Lord one thousand nine hundred and fifty.

CONSTABLE'S RETURN

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

Arlington, Sept. 29, 1950

By virtue of this warrant I have notified and warned the legal voters of the Town of Arlington to meet at the time and place and for the purposes herein specified by causing a printed attested copy of said warrant to be left at every dwelling house in the Town, and by posting an attested copy of said warrant at the doors of the Town Hall and in two or more conspicuous places in each of the fourteen precincts of the Town, seven days at least before the day of said meeting. A notice of the time, place and objects of the meeting was published in the local papers.

FRANK K. NICKSAY

Constable of the Town of Arlington, Massachusetts

SPECIAL TOWN MEETING, OCTOBER 2, 1950

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Arlington by a constable of said town and notices sent by mail by the Town Clerk at least seven days before the day of the meeting to the town meeting members elected and qualified to act in town meetings in Arlington, under the provisions of Chapter 43A of the General Laws, as amended, and published in the local newspapers, as required by the town's by-laws, the town meeting members so qualified met in the Robbins Memorial Town Hall in said town on Monday evening, October 2, 1950. The Warrant calling the meeting was the notice sent by mail by the Town Clerk.

Lists of the duly qualified town meeting members were used at the entrances of the meeting place and were in charge of Philip T. Robinson and James E. Sweeney. The lists contained the names of two hundred fifty-four (254) town meeting members qualified to participate in and vote in town meetings in Arlington.

The check lists filed with the Town Clerk at the close of the meeting showed that one hundred eighty-nine (189) members and ten (10) members-at-large attended the meeting.

Philip H. Burt, stenographer, was sworn by the Town Clerk to the faithful performance of his duties.

The meeting was called to order at 8:10 o'clock P.M. by the Moderator, Mr. Harold E. Magnuson, who declared a quorum present.

Two town meeting members, who had not previously been sworn, were thereupon sworn by the Moderator.

There being no objection to the request of Selectman Purcell, permission was granted Mr. Frost of the Board of Selectmen; Mr. Nicksay, the Secretary of the Board of Selectmen; Messrs. This vote was taken by count, ninety-four (94) voting in the affirmative and eighty-eight (88) in the negative.

J. Howard Hayes of the Finance Committee served notice on the meeting of his intention to make a motion to reconsider this vote.
(See amended vote passed at the adjourned meeting of October 4, 1950.)

There being no further business under Article 2, the Moderator declared it disposed of.

Article 3 taken up. (Civil Defense)

J. Howard Hayes of the Finance Committee moved to withdraw the motion of the Finance Committee as printed in the Report and substitute the following:

"That the By-Laws of the Town of Arlington be and hereby are amended by inserting after Article 15 an article to be known as Article 16, to read as follows:—

ARTICLE 16

CIVIL DEFENSE

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "department"). It shall be the function of the department to have charge of civil defense as defined in Section 1, Chapter 639, Acts of 1950 and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations promulgated thereunder, and to exercise any authority delegated to it by the Governor under said Chapter 639.

SECTION 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director") who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration and operation of the department, subject to the direction and control of the appointing authority, and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks and other assistants as the work of the department may require and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of Chapter 639, Acts of 1950.

The director shall also have authority to appoint district coordinators and may accept and may receive, on behalf of the town, services, equipment, supplies, materials or funds by way of gift, grant or loan, for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants or loans.

SECTION 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECTION 4. POLICE AID TO OTHER CITIES AND TOWNS IN EVENT OF RIOTS OR OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

SECTION 5. TERMINATION OF BY-LAW. This By-Law shall remain in force during the effective period of Chapter 639, Acts of 1950 and any act in amendment or continuation thereof or substitution therefor.

SECTION 6. DEFINITION. All references to Chapter 639, Acts of 1950, as now in force, shall be applicable to any act or acts in amendment or continuation of or substitution for said Chapter 639."

The motion was seconded and on being put to a vote the Moderator declared the motion to amend was unanimously carried.

Discussion followed relative to the amendment of Section 5, and on motion of George A. Harris, duly seconded, it was

Voted: That Article 3 be laid on the table.

Article 4 taken up. (Police Department—Forty Hour Week)

The Finance Committee recommended the following:

That no action be taken under Article 4 of the warrant.

Selectman Purcell offered the following motion, which was duly seconded, that the motion of the Finance Committee be amended by substituting for it the following resolution:

"Resolved, That it is the sense of the Town Meeting to recommend to the Board of Selectmen that members of the Police Department be placed on a forty hour week."

On being put to a vote, the Moderator declared the motion to amend carried.

Thereupon, it was unanimously

RESOLVED, That it is the sense of the Town Meeting to recommend to the Board of Selectmen that members of the Police Department be placed on a 40 hour week.

ARTICLE 16

CIVIL DEFENSE

SECTION 1. DEPARTMENT OF CIVIL DEFENSE. There is hereby established a department of civil defense (hereinafter called the "department"). It shall be the function of the department to have charge of civil defense as defined in Section 1, Chapter 639, Acts of 1950 and to perform civil defense functions as authorized or directed by said chapter or by any and all executive orders or general regulations promulgated thereunder, and to exercise any authority delegated to it by the Governor under said Chapter 639.

SECTION 2. DIRECTOR OF CIVIL DEFENSE. The department shall be under the direction of a director of civil defense (hereinafter called the "director") who shall be appointed as prescribed by law. The director shall have direct responsibility for the organization, administration and operation of the department, subject to the direction and control of the appointing authority, and shall receive such salary as may be fixed from time to time by the appointing authority. The director may, within the limits of the amount appropriated therefor, appoint such experts, clerks and other assistants as the work of the department may require and may remove them, and may make such expenditures as may be necessary to execute effectively the purposes of Chapter 639, Acts of 1950.

The director shall also have authority to appoint district coordinators and may accept and may receive, on behalf of the town, services, equipment, supplies, materials or funds by way of gift, grant or loan, for purposes of civil defense, offered by the federal government or any agency or officer thereof or any person, firm or corporation, subject to the terms of the offer and the rules and regulations, if any, of the agency making the offer. The director shall cause appropriate records to be kept of all matters relating to such gifts, grants or loans.

SECTION 3. CIVIL DEFENSE ADVISORY COUNCIL. There is hereby established a civil defense advisory council (hereinafter called the "council"). Said council shall serve without pay and shall consist of the director of civil defense, such other department heads and such other persons as the authority appointing said director may deem necessary. Such member of said council as said appointing authority shall designate shall serve as chairman of said council. Said council shall serve subject to the direction and control of the appointing authority and shall advise said appointing authority and the director on matters pertaining to civil defense.

SECTION 4. POLICE AID TO OTHER CITIES AND TOWNS IN

EVENT OF RIOTS OR OTHER VIOLENCE THEREIN. The police department is hereby authorized to go to aid another city or town at the request of said city or town in the suppression of riots or other forms of violence therein.

SECTION 5. TERMINATION OF BY-LAW. This By-Law shall remain in force during the effective period of Chapter 639, Acts of 1950 and any act in amendment or continuation or substitution therefor, or until repealed by a two-thirds vote of a representative town meeting duly called for such purpose.

SECTION 6. DEFINITION. All references to Chapter 639, Acts of 1950, as now in force, shall be applicable to any act or acts in amendment or continuation of or substitution for said Chapter 639.

On motion of J. Howard Hayes of the Finance Committee, duly seconded, it was unanimously

Voted: That the sum of two thousand seven hundred seventeen dollars ($2,717.) be and hereby is appropriated for the necessary expenses to be incurred by the department of civil defense; said sum to be taken from available funds now in the treasury and expended under the direction of the Board of Selectmen.

JAMES J. GOLDEN,
Town Clerk

ADJOURNED SPECIAL TOWN MEETING, OCTOBER 9, 1950

Pursuant to the vote of adjournment of October 4, 1950, and written notices sent by mail by the Town Clerk, the town meeting members met in the Robbins Memorial Town Hall on Monday evening, October 9, 1950, to act upon the remaining articles set forth in the Warrant for the Special Town Meeting.

Lists of duly qualified town meeting members were used at the entrances of the meeting place and were in charge of Philip T. Robinson and James E. Sweeney. The lists contained the names of two hundred fifty-three (253) town meeting members, one member having resigned as of this date.

The check lists filed with the Town Clerk at the close of the meeting showed that one hundred forty-seven (147) members and five (5) members-at-large attended the meeting.

The meeting was called to order by the Moderator, Mr. Harold E. Magnuson, at 8:15 o'clock P. M.

On motion of Selectman Purcell, duly seconded, it was

Voted: That if all the business of the meeting as set forth in the Warrant is not disposed of at this session, when the meeting adjourns, it should adjourn to Wednesday evening, October 11, 1950, at 8 o'clock.

Article 22. (Amendment of the Town By-Laws—Pay Plan) (Resumed)

The Moderator declared that the effect of the adjournment of the previous meeting was to remove the substitute motion of Mr. Vahey from the meeting, inasmuch as there was no decision on the motion because a quorum was found not to be present, and that Article 22 was now before the meeting with the recommendation of the Finance Committee before it.

On motion of J. Howard Hayes of the Finance Committee, duly seconded, it was

Voted: That Article 22 be laid on the table.

Article 23 taken up. (Special Compensation for Town Officers and Employees)

The Finance Committee recommended the following:

That no action be taken under Article 23 of the warrant.

James Joseph Carmody offered the following substitute motion, duly seconded:

"That the Moderator be and hereby is instructed to appoint a committee of five members, consisting of the Chairman of the Board of Selectmen or any member of said Board designated by said Chairman, the Chairman of the Personnel Board, the Chairman of the Finance Committee, a Town employee and a citizen of the Town who is neither a Town employee nor a paid Town officer or executive, said committee to be authorized and instructed to investigate and devise ways and means whereby Town officers and employees may be paid extra compensation to meet varying costs of living over and above their basic compensation; said committee to report their findings and draw and

insert such article or articles in the 1951 Annual Town Meeting Warrant as said Committee may deem necessary and make such recommendations to the said 1951 Annual Town Meeting as the Committee may deem expedient; that the sum of One Hundred Dollars ($100.00) be and hereby is appropriated for the use of said Committee, said sum to be taken from available funds now in the Treasury."

On being put to a vote, the Moderator declared the motion to amend carried unanimously.

Thereupon it was unanimously

The ballots cast in the several precincts, enclosed in containers, each of which was sealed in such manner as to effectively lock the containers, were directed by the Town Clerk to be impounded at the Police Station. The voting lists used at the entrances to the polling places and at the ballot boxes, with total vote sheets and copies of the precinct records of the election, were delivered to the Town Clerk, all properly enclosed in envelopes provided therefor, in accordance with the provisions of law relating to elections.

A True Record, ATTEST:

JAMES J. GOLDEN
Town Clerk

Arlington, Mass., November 13, 1950

Copies of the records of the votes cast at the State Election on November 7, 1950, were this day certified by the Selectmen, and attested and sealed by the Town Clerk in envelopes furnished for the purpose and mailed to the office of the Secretary of the Commonwealth and/or the Clerk of Courts for Middlesex County, as required by Section 112 of Chapter 54 of the General Laws.

Arlington, Mass., December 1, 1950

In compliance with the written requests filed this day with the Town Clerk by the candidates for State Senator at the State Election held on November 7, 1950, the recount of the votes for such office, which had been scheduled by the Registrars of Voters to be held on December 2, 1950, was ordered discontinued, as provided by Section 135 of Chapter 54 of the General Laws.

Report of the Registrars of Voters

Honorable Board of Selectmen
Arlington, Mass.

Gentlemen:

The Registrars of Voters herewith submit the following report for 1950:

Temporary Assistant Registrars were again appointed by the Board to assist in the annual listing of persons twenty years of age or over. The lists were prepared, printed and distributed, according to law.

During the year, the Board held twenty-eight evening sessions in public buildings situated throughout the Town for the registration of voters, at which 1,687 persons were qualified to vote in elections. An additional 1,601 persons were so qualified during the regular business hours at the Office of the Town Clerk. A total of 3,288 names were, therefore, added to the voting list.

The total number of registered voters at the close of registration for the State Election, on October 6, 1950, was 24,256, divided into voting precincts, as follows:

Precinct 1	1554	Precinct 8	1790
2	2038	9	1503
3	1295	10	1840
4	1751	11	1816
5	1598	12	2009
6	1545	13	1747
7	1576	14	2194

Petitions were filed for a recount of the votes cast for State Senator in each precinct of the Town at the State Election. However, in compliance with the written requests of the candidates, the recount, as voted by the Registrars to be held on December 2, 1950, was ordered discontinued by the Town Clerk.

Report of the Board of Selectmen

To the Citizens of Arlington:

Herewith is submitted the annual report of the Board of Selectmen for the year ending December 31, 1950.

A study of this report for previous years indicates that 1950 did not deviate materially in its activities as far as the Selectmen are concerned. There were the usual fifty-two Monday meetings, several other afternoon and evening meetings, Finance Committee, Department Heads and Joint Board meetings (detailed in the Joint Board report), appointments, resignations, occasional brickbats and once or twice a bouquet and innumerable discussions of matters that invariably arise in a community of over 45,000 heterogeneous inhabitants. The results of such discussions do not lend themselves to detailed report because many pertain to only small groups of people or separate sections of the Town and others were concerned with the policy which manifests itself gradually and over a period of years. It is our hope and belief, however, that the Board's discussions were sound and will make Arlington a better town in which to live.

After six years of faithful and intelligent service to the Town, as a member of the Board of Selectmen, Joseph Peterson chose not to run again. The Annual Town Election was held March 6, 1950, and Edmund L. Frost was elected to this Board for a term of three years. Joseph A. Purcell was made Chairman of the new Board at its first organizational meeting.

Other matters worthy of note are outlined as follows:

FIRE DEPARTMENT

Appointment by Chief Tierney of twenty-six Privates because of the forty-eight hour week, which was approved in a referendum in 1948.

Retirement of Private Horace G. Aiken.

Installation of additional telephone service to headquarters.

POLICE DEPARTMENT

Retirement of Sergeant William L. Olson and Private Arthur E. Clare.

Appointment of Philip Sweeney as Sergeant.

Reclassification of ranking officers.

Increase in rates for paying details.

At a Special Town Meeting in October, the Town Meeting Members voted in favor of a forty hour week for the police force, as a result this Board established this change in hours effective December 1, 1950. This brought about the appointment of ten new patrolmen and the creation of a new Lieutenancy and Sergeancy. Sergeant Charles O. Toomey and Patrolman Maurice J. Scannell were appointed to these positions, respectively.

PERAMBULATION

During the year, as required by law, the boundary lines of Belmont, Cambridge, Lexington and Winchester were perambulated by our Executive Secretary, Frank K. Nicksay, accompanied by representatives of the above named municipalities.

PATRIOTS' DAY CELEBRATION

The committee appointed in 1949 to handle details of the 175th Anniversary of Patriots' Day did an outstanding piece of work. Details of several days memorable events are recorded elsewhere under a separate report.

WAR

War clouds brought forth new activities. The October Special Town Meeting accepted the Civil Defense act as an addition to the Town's By-laws. In August we appointed Daniel J. Mc Fadden as Director of Civil Defense. Several meetings were held with Mr. Mc Fadden pertaining to procedure, procurement, personnel and policy.

Names were submitted to the Federal Government for the re-creation of a new Draft Board. Many of the Town's young men have already been called to serve and at each of the farewell gatherings one member of this Board was in attendance representing the townspeople.

The following items fit in no particular category and to a large extent are self-explanatory.

Signing of street construction bonds—$275,000. awarded to Banker's Trust Company of New York.

Acceptance for the Town of the Bishop School and the additions to the Hardy School and Junior High School West.

Meetings with the Planning Board relative to Arlington Center Traffic plan, zoning policies, business developments, etc. It is our feeling that occasional joint gatherings will benefit both Boards and in the long run the Town. We appreciate the cooperation of the Planning Board in our mutual discussions.

Painting of Town's seal and department designation on all town-owned cars and equipment. We thank the Board's, not under our jurisdiction, for following this policy and the Board of Public Works for doing the painting involved.

Transfer of Town Accountant's quarters to the Board of Health Office and vice-versa, thereby providing much needed additional space for the Accounting personnel. Our appreciation to the Board of Health for expediting this change.

Our work with departments other than those previously mentioned is included in the reports of the various department heads. For information these departments are as follows; Fire and Police Signal System, Inspector of Buildings, Boards of Appeals, Wire Department, Sealer of Weights and Measures, Veterans' Services Department, Honor Roll Committee, Public Welfare Department, Inspector of Animals, Town Physician, Dog Officer, Moth Suppression, Town House Grounds, Registrars of Voters, Town Accountant, Elections and Town Meetings, Public Buildings, Pensions and Parking Meters.

We express our thanks for the efficient cooperation to our Secretary Frank K. Nicksay, to his assistants Miss Catherine Harrigan and Mrs. Evelyn Ronbeck, to the personnel of the various departments and to the members of the many committees with whom we have worked during 1950.

(referred to the files of the Hon. Board of Selectmen)

Events of the April 19th Celebration are as follows:

Pageant, April 15, 16 and 17—4 performances

The celebration started off with the Pageant "Menotomy" written by Gladys Black Wilcox and directed by William Finn. All performances of the pageant were played to capacity audiences. Many having to be turned away. The pageant depicted in a series of episodes the various happenings on that fateful day, April 19, 1775.

Marine Band Concert April 18, 1950

Thousands of people went to Warren A. Pierce Stadium, Tuesday Evening to hear the wonderful concert by the U. S. Marine Corps Band. It was sent to Arlington by an act of the Congress of the U.S. to participate in the festivities. Varied selections were played to suit all tastes. The concert was directed by Major William F. Santelman, U.S.M.C.

Military Ball, April 18, 1950

Hundreds of Townspeople attended the Military ball held Tuesday evening in the Town Hall. Most people attending wore formal attire, some arrived clothed in period costumes. Specialty dances were presented by the pupils of Mary Corbett Burns, the O'Neil Sisters, and Mr. Russell Curry. Ruby Newman's orchestra provided the music for the affair. Paul Revere and William Dawes, Jr. arrived at the town hall at 11:07 P.M. accompanied by television cameras, photographers, and reporters. Both men were greeted upon arrival by the Hon. Board of Selectmen and members of the Patriots Day Committee.

Flag Raising Ceremonies, April 19, 1950

Flag raising by the Boy Scouts of America at Town Hall, assisted by the Stanley Benner Marine Corps league, immediately followed by Memorial Services for Revolutionary Heroes at Old Burying Ground on Pleasant Street.

Parade, April 19, 1950

Wednesday morning an estimated 55,000 people watched the most spectacular parade ever held in Arlington. It started from Appleton St. Arlington Heights, and proceded down Massachusetts Avenue to Lake St. in East Arlington. The parade started promptly at 9:30 A.M.

The Chief Marshall, Joseph Paterson's staff included William S. Batchelor, Harold E. Magnuson, Kenneth Reed, Francis O'Hara, Bernard Courtney, as Marshalls: Horace Homer, Chief of Staff, William Smith, Adjutant: James Dean, Lawrence Kiely, Francis Breen, Michael Miscione, Charles Sheehan, Thomas Widger and George Dasseos as Aides.

The parade was divided into five major divisions: Military, Veterans, youth, Civic and Municipality. Among the invited guests present were Senator Leverett Saltonstall and Congresswoman Edith Nourse Rogers. At exactly twelve noon, the fire whistles sounded "1-7-7-5" and the reception to the riders, Paul Revere and William Dawes, Jr. followed.

Bronze Plaque, D.A.R., April 19, 1950

A Bronze Plaque was presented to the Town of Arlington by the Daughters of the American Revolution "to perpetuate the memory of local Revolutionary Heroes." Plaque was presented by Mrs. John Sampson and was received by Wilson D. Clark, Jr. for the Library Trustees, and Joseph A. Purcell, Chairman of the Board of Selectmen.

Fireworks, Band and Essay Contest, April 19, 1950

Between twenty-five and thirty thousand people swarmed to Spy Pond Field Wednesday Evening to witness a spectacular and splendid pyrotechnical display. As one man was overheard to say: "By Golly if you're going to do it, do it right—like this!" The Band Concert by the Arlington Academy of Music under Dean Ward was varied and interesting. Side streets were jammed with parked cars for almost a mile from the field in all directions. At the end of the fireworks finale the final bomb shook the ground and reverberated over Menotomy's hills.

The Essay Contest, "the Significance of Patriot's Day in the Building of America" winners were named after the Band Concert at Spy Pond Field. Prizes were presented by representatives of the Auxiliaries of the Marine Corps League, American Legion and the Veterans of Foreign Wars, Mrs. Kenneth Troy, Mrs. Lawrence Keily and Mrs. Ursulle Gallerani, who donated the prizes. The judges were Mrs. Winifred Rugg, chairman, James J. Golden, and Mrs. Lucinda Spofford.

Decorations of the Town of Arlington

The Town of Arlington was dressed up for the occasion of the 175th Observance of Patriots Day. All historic spots, municipal buildings and Massachusetts Ave. were splendid in decorative colors.

Attached is the financial report of the celebration and a copy of the pageant "Menotomy." The Town of Arlington Files should contain this copy as future citizens of the town may want to reproduce it.

Respectfully submitted,

WILLIAM S. BATCHELOR,
Chairman

Annual Report of the Department of Civil Defense

To the Citizens of Arlington:

In compliance with Section 3 of Chapter 3 of the By-Laws of the Town, I herewith submit the first annual report of the newly created department of Civil Defense.

In accordance with the provisions of Section 13, Chapter 639 of the Acts of 1950, General Laws of Massachusetts, the Board of Selectmen appointed the undersigned as Director of Civil Defense on August 7, 1950. At the adjourned Special Town Meeting held October 4, 1950, under Article 3 of the Warrant, a department of Civil Defense was established and a By-Law pertaining to the operation of this department was adopted. This action was later aproved by the Attorney General on October 25, 1950.

Civil Defense has been defined as the organization of the people to minimize the effects of enemy action or of any disaster from fire, earthquake or other natural causes. We are principally concerned at this time in the development of a plan which will prepare us to handle any emergency caused by enemy action. It encompasses the entire field of passive defense—as distinguished from active defense which is the function of the Armed Forces— in saving lives and restoring our community.

Our master plan of defense activity has been approved by the Director of Civil Defense, Commonwealth of Massachusetts. We have geographically divided our community into eight districts, each of which can operate independently in the case of minor emergencies. The scope of our plan covers the following services: Fire, Police, Medical & Health, Communications, Welfare, Evacuation, Transportation, Atomic and other Special Defense, Public Utilities, Public Works, Supply, Personnel, Plans and Training, Public Information and Control Centers. Deputy Directors have been appointed to develop each of these phases and are now preparing an estimate of personnel, equipment and supplies necessary to operate under disaster conditions.

Muncipal department heads, their employees and equipment provide us with a strong nucleus for defense activities. Departments such as our Fire, Police, Public Works and Welfare, handle daily what may be called minor emergencies. Our defense activities must be designed however to handle a great number of these emergencies at the same time so it will be necessary to expand our present municipal facilities and personnel by the use of auxiliary volunteer forces and privately owned facilities and equipment.

The cost of Civil Defense cannot be accurately estimated at this time. We feel certain that both the State and Federal Govrnments will assist us at least financially, but even with this assistance, additional expense to the Town must be anticipated. We are charged with the development of an effective defense program which cannot be accomplished without the purchase of equipment and supplies over and above what is presently available from both municipal and private sources.

We are not ready now for an emergency, but our plans are so developed that we feel rapid strides can be made in 1951 towards accomplishing our goal. We are completely dependent, however, upon the volunteer services of our towns-people and we feel confident that, realizing

the importance of self-preparedness, we will receive excellent support from our citizens.

The support and cooperation given to our defense activities by municipal boards and their employees, organizations and individuals in the past four months has been most gratifying. To them I extend my grateful appreciation and trust that with the continued support of this fine nucleus, we shall rapidly expand our volunteer organizations.

Respectfully submitted,

Daniel J. McFadden
Director of Civil Defense

The following changes were made and put into effect for greater safety for school children during 1950:

1. At Mystic and Chestnut Streets the children use only one crosswalk instead of the two as were used formerly. This procedure eliminated the needs of the officer's observation, of two crosswalks and resulted in greater safety for the children.

2. At Medford Street and Mass. Avenue the same procedure was put in effect.

3. Studies were made of routes of children in all the elementary schools and as a result changes were made at the following schools and children were rerouted:

HARDY
LOCKE
PEIRCE
RUSSELL
ST. AGNES

4. Parking has been eliminated in front of all schools during school hours. Additional signs were posted for enforcement.

5. A special school stop was made at Mass. Avenue and Lockeland Avenue for the benefit of Senior High School students. The M.T.A. co-operated in this measure.

6. Hudson Bus Lines, Inc. co-operated after a request by this department and established a special stop on Lockeland Avenue when operating on school trips.

7. M.T.A. established a special stop in front of St. Agnes School when on school trips on request by this department.

8. Ten additional crosswalks in school vicinities were painted for school patrol crossings.

9. Safety flags for use of school children were provided.

10. Portable school crossing light manufactured by maintenance department for use at school crossings.

11. Sidewalks in certain school areas have been recommended by this department to the Board of Public Works.

12. Recommendation of transfer of pupils from one school to another as a safety measure was also made by this department.

Numerous signs and crosswalks will be made available for 1951 for still greater protection of our children in ARLINGTON.

TRAFFIC SIGNAL DEPARTMENT

This department is responsible for the installation and maintenance of all traffic signals; all signs for the regulations of vehicular traffic and the painting of all traffic lines, cross-walks, stop lines, etc.

The work of this department has increased tremendously during the past few years because of the increased number of automobiles using our highways.

W. R. LeBarron Company, of Arlington, have been awarded the contract to install a complete new set of traffic signals in Arlington Center by the State Department of Public Works. This will include a complete co-ordinated flexible system of lights from Franklin Street to Mill Street and, after completion, they will be turned over to the Town for maintenance.

AUXILIARY POLICE

This fine group of citizens have again given many hours of their time working with the youth of our town. They have again this year carried on with their baseball leagues for boys up to seventeen years of age, their regular Friday evening dance for high school youngsters and their firearms instructions. They also support, under John Babine, one of the finest hockey teams in this part of the country.

We feel that a youngster busy with some properly directed sport has no time to get himself into any serious trouble.

I consider the Town of Arlington to be very fortunate to have such a group as the Arlington Auxiliary Police give so freely of their time and effort in this most worthy work which has proven such a decided success in curbing juvenile delinquency.

The finest cooperation has existed between the Superintendent of Schools, the various Principals and this department in the investigation and correction of delinquency. Credit must also be given to the character building organizations, such as, the churches, the Boys' Club, the Boy and Girl Scouts, the C.Y.O. and other organizations who have done yeoman service for the benefit of juveniles.

MISCELLANEOUS DUTIES

This particular report section shows an increase of 563 separate cases attended to over that of 1949.

A glance through this report will show the multiplicity of work performed by the members of this department in the safety and welfare of the citizens of the town.

Take the sick and injured cared for—this shows 243 persons, 3,387 separate cases investigated. There were 85 lost children cared for. In some instances with children, three, four and five years of age, they were held at police headquarters for hours before parents were aware they were missing.

In addition, investigations were made for several different Federal Agencies including the Federal Bureau of Investigation and Civil

Service Department. Also many investigations were conducted for various commercial organizations throughout the country on persons who had sometime resided in Arlington.

Under the head of Miscellaneous Duties can be found an enormous amount of detail work accomplished.

I am sincerely grateful to the members of the Arlington Auxiliary Police Association who have never failed to assist the department wherever their services were requested during the year.

To the Federal, State and Town Departments I am deeply grateful for their earnest and kind assistance, especially grateful to the members of my own department. I sincerely appreciate the wholehearted attention to duty exercised by all members of this department during the year. It was through their diligent attention to their many duties, in all kinds of weather, that Arlington continues to be comparatively free from crime and a good place in which to live.

In closing I wish to express my sincere appreciation to your Honorable Board, Officials of the Town Government, as well as the citizens of Arlington for their splendid assistance and cooperation during the year.

Respectfully submitted,

ARCHIE F. BULLOCK,
Chief of Police

Report of the Fire Department

Honorable Board of Selectmen
Town Hall
Arlington, Massachusetts

Gentlemen:

I have the honor to present my Second Annual Report as Chief of the Arlington Fire Department for the year ending December 31, 1950.

REPORT OF DEPARTMENT SURGEON

Dr. Edward W. Feeley, Department Surgeon, rendered the following services during 1950: House calls 4, office calls 35, hospital calls 4, station calls 8, and physical examinations 32.

In addition he responded to many alarms and had conferences with the Chief on medical matters pertaining to the Department.

FIRE PREVENTION

All places of business, public building, schools, hospitals, convalescent homes, and places of public assembly were inspected each month, a yearly total of 9,500 inspections.

A record was made of existing conditions, together with the date when corrections were made. Regular inspection of this type of occupancy greatly decreases the causes of fire and results in smaller fire losses to property and contents.

Ten fires occurred in these regularly inspected places, causing a loss of $15,282.51.

Recharged 171 fire extinguishers in these buildings.

INSPECTION OF DWELLINGS

The Twenty-seventh Annual Voluntary Inspection by the Firemen of the cellars of every home in Arlington was made during Fire Prevention Week, October 8 - 14; 8,687 houses were inspected, checked for fire hazards and a record of each inspection established.

Owners and occupants were advised to correct possible hazards which would contribute to the start or the increase of fire.

Eighteen fires occurred in cellars of residences; 13 were caused by defective oil burners and one by spontaneous ignition. There were 14 cellar fires in 1949.

The following is compiled as a result of Dwelling House Inspections:

Total Houses	8,687
Single Houses	5,487
2-Apartment houses	2,991
Of more than two apartments	209
Vacant apartments	—
Combustible roofs	2
House with power oil burners	5,674
Houses with range oil burners	4,356

INSPECTIONS

Dwellings	8,687
Mercantile	9,500
Power oil burners	751
Range oil burners	109
Total inspections	19,047

FIRE DRILLS IN SCHOOLS

The annual fire drill under the supervision of the Officers of the Fire Department was conducted in public, parochial and private schools.

A record was made of the number of classrooms, pupils, exits used and the time required to vacate each building, a copy of which was sent to the School Department.

TRAINING OF FIREMEN

The Department Drill School was conducted April 3 - 15. It was a training program of sixty hours of drill with instruction and practice of fire department evolutions and fire fighting methods.

RECOMMENDATIONS

For the year 1951 recommend that $351,155.32 be appropriated including the appointment of three new men from May 1, and the replacement of Engine 4.

In May received the Report of the Town of Arlington from the National Board of Fire Underwriters, a summary of its survey conducted in 1949 by request of the Board of Selectmen.

In this Report, the National Board of Fire Underwriters recommends:

That additional company officers be provided,

That sufficient men be added to the department at once,

That a program be adopted for the replacement of older apparatus and hose,

That the Training Program be expanded and that ample room be provided at the Drill Tower, and

That a code of modern regulations for fire prevention be adopted.

Regarding the Training Program and Code of Regulations, I ask that a committee be appointed to consider plans for a new Drill Tower and Drill Yard; also that a Fire Prevention Bureau be established as a Division of the Fire Department with the Deputy Fire Chief in charge, and that Chapter 20 be adopted.

CONCLUSION

I am grateful to the Honorable Board of Selectmen for its kind consideration and interest shown in the affairs of the Department; and also to its capable and efficient Secretary, Frank K. Nicksay.

I am thankful to the Town Engineer, James M. Keane, and his staff for valuable assistance; and also to the Police Department for splendid cooperation.

To my own Officers and Men for continued earnest effort and loyal support under all conditions, I extend sincere thanks.

Respectfully submitted,

RICHARD J. TIERNEY,
Chief, Fire Department.

Report of the Fire and Police Signal System

Honorable Board of Selectmen
Town Hall
Arlington, Massachusetts

Gentlemen:

I have the honor as Superintendent of the Fire and Police Signal System to present my Second Annual Report for the year ending December 31, 1950.

The System is maintained by Assistant Superintendent, Lester W. Cameron, and one Signal Maintainer, together with temporary labor.

April 23, Kenneth B. Colbert was appointed Signal Maintainer to replace John J. Frasell who resigned April 1.

FIRE ALARM AND POLICE SIGNALS

Seven open circuits occurred when pedestals were struck by automobiles, by aerial lines breaking during storms and when lines crossed with high tension wires.

February 3, replaced rattler door on Fire Alarm Box 15 and Box 2631.

March 15, relocated 6-inch tapper from Garage to Water Shop at Public Works Building, 1033 Massachusetts Avenue.

May 13, replaced the 12-circuit Teletalk System in Watch Room at Fire Department Headquarters.

July 26, installed 6-inch tapper in the home of Deputy Chief Bartholomew J. McGreevy.

August 1, provided for four telephone trunk lines to Fire Department Headquarters to conform with the recommendations of the National Board of Fire Underwriters that telephone facilities be improved.

September 16, Box 53, Massachusetts Avenue-Schouler Court, burned out by high voltage and temporarily replaced with spare Box 99; Box 99 renumbered Box 53, November 7.

October 4, repaired the whistle in tower at Fire Department Headquarters.

October 8. Box 712 Brattle Street-Brattle Place, damaged when struck by automobile.

November 24, replaced 14-inch gongs with 10-inch gongs at Headquarters and at Highland Stations.

November 25, the severe storm caused high voltage lines to drop on fire and police signal wires, burning wires and 25-c cable splice in the manhole at Park Avenue-Prospect Avenue.

December 16 and 29, Box 572, Massachusetts Avenue-Lexington Line, damaged twice when struck by automobile.

Installed the following new fire alarm boxes:

Box	19	Broadway-Everett Street
	193	Fremont Street-Fremont Court
	197	Gardner Street-Opposite #168
	1721	Mystic Valley Parkway- Palmer Street
	1761	Ernest Road-Everett Street
	2891	Spy Pond Parkway-Roanoke Road
	2892	Spy Pond Parkway-Pioneer Road
	3551	Columbia Road-Bishop School
	3561	Beverley Road
	683	Hawthorne Avenue-Coolidge Road
	7131	Pine Street-Charles Street
	8632	Brewster Road-Sagamore Road
	8633	Standish Road-Mayflower Road

Peerless 3-fold boxes replaced following Gardner-type boxes:

Box	13	Massachusetts Avenue-Palmer Street
Box	158	Massachusetts Avenue-Cambridge Line
Box	683	Hawthorne Avenue-Kenilworth Road, relocated to Hawthorne Avenue-Grand View Road

CABLE CONSTRUCTION

April 27, replaced six sections of cable on River Street from underground pole at Warren Street east; 6-c aerial cable replaced 6-aerial wire. Changed lines because poles were reset.

May 9, installed 3-inch underground conduit on Columbia Road from Mystic Street to Box 3551, Bishop School and pulled in 6-c underground cable.

June 29, replaced 2-c aerial cable on Brantwood Road from Jason Street to Box 464, Kensington Road.

August 23, replaced 6-c underground cable with 6-c anhydrex neoprene cable from Box 51, Massachusetts Avenue-Pleasant Street to Test Terminal at Old Town Hall.

September 8, Mystic Street Cut-over completed from Ridge Street to Winchester Line. Moved Fire Boxes 356, 357, 359, and Police Box 213 from Telephone pole to Edison pole on opposite side of street; Telephone pole discontinued.

September 16, replaced 6-c underground cable with 6-c anhydrex neoprene cable from Box 53, Massachusetts Avenue-Schouler Court to Test Terminal on Schouler Court, and from Box 53 to Terminal Box in Senior High School.

November 26, replaced 4-c aerial cable with 6-c aerial cable on Oakland Avenue from Park Avenue to Wachusett Avenue.

Installed the following new police signal boxes:

Box	215	Mystic Street-Chestnut Street
	214	Hutchinson Road-Oldham Road
	231	Beverley Road
	241	Webster Street-Philips Street
	261	Gardner Street-Opposite #168
	416	Brewster Road-Sagamore Road

SPECIAL DETAILS

April 18 and 19, installed floodlights at Town Hall and Warren Peirce Playground for Patriot's Day Observance.

May 11, completed office plans of Fire and Police Signal Circuits.

June 13, installed telephone at the Bath House, Arlington Heights Reservoir, and connected to Police Circuit 4.

December 15, arranged Christmas lighting and decorations at the Town Hall, on Tree at Monument Park, at Fire Department Headquarters and at Highland Stations.

APPROPRIATION

1950 Appropriation	$20,462.54
Expended	11,523.82
Balance	$ 8,938.72

RECOMMENDATIONS

For the year 1951 recommend that $14,292.86 be appropriated to include cable construction, installation of thirteen fire alarm boxes and three police signal boxes.

In its Report on the Town of Arlington received in May, the National Board of Fire Underwriters makes the following recommendations regarding the Fire Alarm System:

That the fire alarm telegraph system be expanded and improved,
That sufficient men properly maintain, test and operate the System,
That adequate headquarters facilities be installed for necessary additional circuits; space to be provided by new construction or by rearranging present facilities,
That sufficient circuits be installed and to continue the installation of circuits underground,
That inferior type signal boxes be replaced by boxes of modern succession type, and
That frequent and complete tests be made of the Signal System.

Regarding the matter of adequate headquarters facilities, I ask that a committee be appointed to make plans for this project.

CONCLUSION

My appreciation and thanks to Lester W. Cameron, Assistant Superintendent of the Fire and Police Signal System, and to Kenneth B. Colbert, Signal Maintainer, for their sustaining efforts in maintaining the very vital and important Signal System.

Respectfully submitted,

RICHARD J. TIERNEY,
Superintendent, Fire and Police Signal System

Report of the Board of Appeals

December 31, 1950

To the
Honorable Board of Selectmen,
Arlington, Massachusetts.

Gentlemen:

The Boards of Appeals report herewith on their activities for the calendar year ended December 31, 1950.

The Board of Appeal, under the Building Code, heard eighteen (18) appeals from rulings of the Inspector of Buildings. Permission was given for the withdrawal of one (1) case. Favorable action was taken with respect to seventeen (17) cases, restrictions or conditions being imposed upon ten (10) of the allowances. In addition to hearing appeal cases the Board took action upon several recommendations of the Inspector of Buildings.

There were sixty-two (62) cases heard by the Zoning Board of Appeals. Of the cases heard fourteen (14) were brought before the Board by way of petition. One (1) petition was denied. Six (6) petitions were granted, limitations being imposed upon three (3). Permission was given for the withdrawal of one (1) petition and the Board dismissed six (6) others for the reason that approval of the Board was deemed to be unnecessary in the particular situations presented. There were forty-eight (48) appeals heard. Permission was given for the withdrawal of one (1) appeal. Six (6) appeals were unqualifiedly denied. Of the remaining cases heard the Board allowed forty (40) appeals, imposing restrictions upon ten (10) and allowed one (1) in part.

As of the close of the year there were matters pending on the dockets of both Boards. There had been entered two (2) zoning appeals and two (2) building appeals. Hearings on all four matters were scheduled for a date certain in the month of January, 1951.

Respectfully submitted,

JOHN R. SALMON
CLIFFORD E. LANSIL
ROBERT W. BLAISDELL.

Report of the Wire Department

To the Honorable Joint
Board of Selectmen and
Board of Public Works
Town Hall, Arlington, Mass.

Gentlemen:

I respectfully submit my eleventh Annual Report as Inspector of Wires for the year ending December 31, 1950:

STREET LIGHTING

Summary of street lighting in service December 31, 1950, lights burning on the 4000 hour schedule:

800 Lumen Incandescent Lamps	1556
2,500 Lumen Incandescent Lamps	33
4,000 Lumen Incandescent Lamps	4
6,000 Lumen Incandescent Lamps	352
10,000 Lumen Incandescent Lamps	130
15,000 Lumen Incandescent Lamps	10

INSPECTION OF WIRES IN BUILDINGS

Nineteen hundred and sixty-one (1961) permits for electrical installations were issued during the year at fifty cents for each permit. This is an increase of three hundred and eighteen (318) permits over last year.

There were eight hundred and twenty seven (827) inspections made and five hundred and eighty-six installations approved.

POLES AND WIRES ON STREETS

The Boston Edison Company and the New England Telephone and Telegraph Company replaced one hundred and thirty-four (134) poles during the year.

RECOMMENDATIONS

I again recommend that an Assistant Inspector be appointed so that all electrical installations may be inspected, it being impossible for one person to inspect all the electrical installations and perform the other duties of the Inspector of Wires.

I wish to thank your Board, the various departments and others for their cooperation during the year.

Respectfully submitted,

R. L. REID,
Inspector of Wires.

I wish to express my appreciation to your Honorable Board and to to the Secretary of the Board and his Assistants, for the cooperation extended to me during the past year.

Respectfully submitted,

JAMES J. DOLAN,
Sealer of Weights and Measures.

Annual Report of Department of Veterans' Services

The Honorable Board of Selectmen
Arlington, Mass.

Gentlemen:

Submitted herewith is the sixth annual report of the Department of Veterans' Services covering the calendar year 1950.

All services furnished in previous years have been continued and some new ones added. Under the provisions of the law creating this department there must be furnished to veterans and their dependents such information, advice and assistance as may be necessary to enable them to procure the benefits to which they are or may be entitled relative to employment, vocational or other educational opportunities, hospitalization, medical care, pensions and other veterans' benefits. The Director must have on hand at all times copies of current booklets and other printed matter pertaining to the statutory rights of veterans provided under state and federal laws. The Director must work in close co-ordination with existing federal agencies established for the aid of veterans. All of the above is in addition to financial aid furnished needy veterans and their dependents. It is classified as Veterans' Services. Disbursements to and on behalf of Veterans and their dependents for the period January 1, 1950 to December 31, 1950 inclusive, were as follows:

Veterans' Benefits (Needy cases. State participation 50% of authorized payments)	$24,082.47	
War Allowance (Full reimbursement by State)	324.25	
Burial Aid:		
Chapter 115, General Laws (Needy cases. State participation 50% in Arlington settled cases and 100% otherwise	0.00	
Chapter 573, Acts of 1946, (Reimbursement of recognized organizations of veterans for expenses incurred in providing military honors at funerals of veterans who died overseas in World War Two. State participation 100% of authorized expenditures)	130.00	
Total disbursements		$24,536.72

Reimbursement received by Town Treasurer from the State Treasurer in 1950:		
Veterans' Benefits	10,614.27	
War Allowance	0.00	
Burial Aid:		
Chapter 115	150.00	
Chapter 573	254.95	
	$11,019.22	
Received from other towns for aid to non-settled applicants	70.00	
Refunds from beneficiaries	343.50	
Total returned to Town Treasury		11,432.72
Net Expenditures		$13,104.00

During the past year there has been a general increase in costs all along the line including rents, food, hospital, medical, clothing and household effects. The budget, on which allowances of financial aid to beneficiaries is based, necessarily had to be adjusted upward. Thus, the expenditures for aid increased approximately one-fifth over the year before. As there was no unemployment problem with which to cope it can be readily seen that age, disability of breadwinners and the recall of married veterans to active duty in the armed forces has brought about the need for aid in the majority of cases. Due to a ruling of the Attorney General's office, veterans on strike are held to be eligible to receive Veterans' Benefits. There were several striking veterans aided for short periods. War Allowance was re-activated and made available to dependents of service men who might be in need, temporarily, due to the failure of monthly allotment checks to arrive on time or other causes, by the enactment of Chapter 797, Acts of 1950. During the present emergency it is expected that there will be several applicants for War Allowance each month. Much money is saved the Arlington taxpayers by the energetic prosecution of claims of our applicants at the U.S. Veterans Administration thus obtaining pensions, compensation, free hospitalization and other benefits which would otherwise be a burden on the taxpayers.

In conclusion, may it be stated that the help and cooperation of the Board of Selectmen, their secretary, Mr. Nicksay, and the members of the Advisory Board of the Department of Veterans' Services and the faithful services of the employees of the Department is gratefully acknowledged.

Respectfully submitted,

CHARLES R. ARMOUR

Report of the Arlington Housing Authority—1950

(Incorporating Annual Report of the Executive Director, Robert Hauser)

Board of Selectmen
Arlington, Massachusetts

We are pleased to submit to you this our third annual report of the activities of the Arlington Housing Authority for the year 1950.

At the annual town election held on March 6, 1950, Mr. Joseph S. Vahey was re-elected to office for a term of five years. The annual meeting of the Authority was held on March 28, 1950 and the following officers elected:

Chairman	W. Dale Barker
Vice-Chairman	Joseph S. Vahey
Treasurer	Myron D. Chace
Asst. Treasurer	Torsten H. Reenstierna

It was stated in our report for the year 1949 that we expected first occupancy in early February 1950. We are pleased to say that the first apartments were accepted for occupancy, and veterans and their families actually moved in on February 1, 1950. We continued to accept units as they became available for occupancy, and full occupancy was attained on July 1, 1950. The rents charged to these low income veterans is a percentage of their income varying with the number of children in the family, namely, 14% of income for families with three or more minor dependents, and 18% of income for those families with two or less minor dependents. These percentage rates were established by the State Housing Board based upon a survey of all the applications received.

During the latter part of May 1950, the Authority moved its office from the Robbins House to the Administration Building at 2 Fremont Court, on the site of the Project. We wish at this time to express our gratitude to the Town for making the space in the Robbins House, available to us for nearly two years.

The landscaping of the Project was started in the spring and was completed about August first, which has changed the appearance of the area so that it is now hardly recognizable as the same fields that existed less than eighteen months ago. It should be noted that first occupancy was attained within eight months of the ground-breaking, and full occupancy in less than one year of date of ground-breaking.

The tenants in the Propect have formed an association and are contemplating many neighborhood activities. Their most ambitious effort to date has been the Christmas celebration whereby each family contributed voluntarily. There was a tree purchased, lights for the tree, porch lights in red and green, a Santa Claus, and a present from Santa Claus to every child in the 126 families.

On December 14, 1950, bids were accepted and opened for the purchase of forty year bonds, in the name of the Arlington Housing Authority, to be dated January 1, 1951. The interest rate on these bonds is to be 1.75%. However, a premium of some $22,000. was received, reducing the net interest cost to 1.69%.

In June, the Authority employed Mr. John C. McGillicuddy as maintenance man for the Project.

After the final landscaping and finished grading of this Project, there

was an excess of loam, owned by the Authority, upwards of some 7000 yards. This loam was made available to the Town for the betterment of its public places.

The Authority has paid to the Town, in lieu of taxes, $463.00 to date and, pending the completion of final accounts for the year 1950, plans a further payment more than twice that which has already been paid.

After screening of the more than 600 applications for this development, the Authority determined there was a need for further housing for the low income veteran, and an Application for Financial Assistance was filed with the State Housing Board in April 1950 for a development of fifty additional units.

The Authority has had to average better than one meeting a week in order to handle details of construction and the examining of applications in addition to much time expended individually in carrying out the necessary business details connected with the Project. The Authority feels that the completion of this Project of 126 family units has proved to be a definite asset to the Town and has somewhat assisted in relieving the acute housing situation by giving excellent accommodations to 126 low income families.

The Arlington Housing Authority feels that credit for this Project is due in large measure to the Town as a whole because of the excellent cooperation received from all Boards and Officers of the Town.

Respectfully submitted,

Arlington Housing Authority.

W. Dale Barker, Chairman
Myron D. Chace
Harold E. Magunson
Torsten H. Reenstierna

Services

Two hundred and forty-eight new services have been added during the year. There are for all purposes 3,929 on the low, 5,565 on the high, and 3 on the old reservoir system. On the Metropolitan water supply there are 72 services for municipal purposes, 33 sprinkler services, and 44 for sewer flushing purposes included in the above. On January 1, 1951, 254 services were temporarily out of use.

1. Kind of pipe: copper, cement-lined, black wrought iron and lead, 3 inch to 6 inch cast iron.
2. Sizes, 1 inch to 6 inch.
3. Number of service taps added during year, 248.

4. Number of services abandoned during year, 5.
5. Number of services now in use, 9,494.
6. Percentage of services metered, 100%.

Meters

Two hundred and forty-eight meters were set during 1950 on services installed in 1949-1950. The total number of meters in use January 1, 1951, is 9,494.

The members of the Board wish to take this opportunity to express their appreciation to the various Boards, Town Officials, Department Heads and Employees of the Public Works Department for their cooperation during the entire year.

THOMAS R. RAWSON
Board of Public Works

Report of the Joint Board of Selectmen and Public Works

The Forty-Seventh Annual Report of the Joint Board of Selectmen and Board of Public Works for the year ending December 31, 1950, is herewith submitted in accordance with the Town's By-Laws.

At the Annual Town Election held in March, Mr. Edmund L. Frost was elected as a member of the Board of Selectmen and Mr. Thomas R. Rawson was elected as a member of the Board of Public Works, both incumbents to serve for a period of three years, and by reason of their election became members of the Joint Board.

The Board organized at the first meeting held thereafter with Mr. Joseph A. Purcell acting as Chairman and Mr. John L. Murphy as Vice-Chairman.

Regular meetings were held semi-monthly throughout the year, with the exception of the months of July and August, in conformance with established policy, and special meetings held whenever it was deemed necessary, with a total of twenty regular and twenty-one special meetings held during the current year.

The usual departmental activities under the jurisdiction of the Joint Board are covered in detail elsewhere in the Town Report, but are further amended by the following informative facts:

STREETS

Despite the continued high cost of street construction, the Board, acting at the insistence of the Town's citizenry residing on private ways, adopted an unusually large street construction program for the current year.

Prior to the closing of the Warrant for the Annual Town Meeting, the Board, after duly considering the merits of all applications received and determining the maximum size of a program that could be handled by the departmental facilities at their disposal, voted their intention to recommend twenty-eight of these streets for acceptance and construction.

Public hearings were scheduled as required by law and as a result of these hearings the Board ultimately adopted the necessary order for laying out twenty-two of these ways for acceptance as public streets.

At the Annual Town Meeting in March an appropriation in the amount of $327,780.44 was voted for the construction of these streets and $275,000. of this sum was floated as a bond issue, not to exceed a period of ten years, at an interest rate of 1¼%, in an effort to keep the current tax rate as low as possible.

The Board of Public Works despite the limited amount of road building equipment at their disposal, undertook the construction of thirteen of these streets and have completed all but one of these ways, which involved an unusual drainage problem, during the past year. Only nine streets were permitted to be built by private contract and

the indications of a substantial saving to the Town are evidenced by their efforts.

Contracts were awarded under the provisions of Chapter 90 of the General Laws for the repair and reconstruction of both sides of Massachusetts Avenue, from Mt. Vernon Street to Lowell Street, the northerly side of Massachusetts Avenue, from Central Street to Franklin Street, the southerly side of Massachusetts Avenue, from Pleasant Street to Franklin Street, and Broadway, from Medford Street to Bates Road. The State and County participated in the cost of these improvements with an allotment from the State in the amount of $28,800. and the Town and County each contributing $14,400. as their proportionate share. Detailed accounts of this construction may be found in the report of the Board of Public Works.

Request has again been made of the State and County by the Joint Board for projects to be considered under Chapter 90 for 1951, for the following locations and subsequent allotments:

Construction, reconstruction, widening and relocation of ways including Mystic Street, Chestnut Street, Prescott Street and a new way	$125,000.00
Bituminous concrete surfacing of Broadway, from Bates Road to the Somerville line	$ 22,500.00
Bituminous concrete surfacing of Mystic Street, from opposite Beverly Road, 500 feet	$ 15,000.00
Bituminous concrte surfacing of Park Avenue, from the Concord Turnpike to Cedar Avenue	$ 6,160.00
Bituminous concrete surfacing of Park Avenue, from Cedar Avenue to Wachusett Avenue	$ 5,600.00
Bituminous concrete surfacing of Massachusetts Avenue, from the southerly side of Lake Street to Egerton Road	$ 9,600.00
Bituminous concrete surfacing of Pleasant Street, from the Concord Turnpike 740 feet northerly	$ 5,600.00
Maintenance of Chapter 90 Roads	$ 3,000.00

Following the precepts established in the past year, the Board has again recommended a street construction program with a total of twenty-three applications received for the Board's consideration.

Many of these applications have repeatedly been presented throughout the years but because of regulations in existence for several decades, the Board has been forced to reject such applications. The principal bar to the acceptance of a street concerned a ruling whereby no such way could be considered by the Board unless preliminary grading had been completed to conform with 6" of the established Board of Survey grade for its entire width. In the event such preliminary grading had not been completed by the original developer of the property, it resolved itself into a problem for the abutting owners to complete this work by private contract at their own expense. In many instances it was found that these portions of streets which were not excavated to grade consisted of ledge and there has been a reluctance upon the part of property owners residing in these areas to enter into negotiations for its removal, due principally to the fact that such procedure was alien to the ordinary layman.

The Board has been sympathetic to the difficulties encountered by these residents of the Town and in an effort to alleviate a situation which could well preclude a street, coming within this category, from

ever being constructed, has adopted a new policy whereby the cost of any excavation above the approved Board of Survey grade of a street will henceforth be included in the estimated cost of construction and such cost will be borne in its entirety by the abutting owners and such excavation will subsequently be included at the time the street is constructed.

In view of the above policy applications are being recommended by the Board which hitherto have received no consideration and as a result, the street construction program for 1951, although not as large as the current program, will again prove to be substantial.

SIDEWALKS AND EDGESTONES

The Board of Public Works, in accordance with its steadfast policy, has continued the installation of granolithic sidewalks and granite edgestones, under the provisions of law authorizing the assessment of betterments. An appropriation of $15,000. was made at the Annual Town Meeting to further this program.

Applications for this work continue to exceed the yearly appropriations, and as a result, this program is approximately two years behind schedule.

Residents of Summer Street Boulevard, an artery of the State Highway system, submitted a petition for the installation of sidewalks and edgestones in this area and the Board, in an effort to cooperate, entered into a joint undertaking with the State Department of Public Works for such installation. Sections on the southerly side of Summer Street Boulevard, from Overlook Road to Forest Street, and on the northerly side of Summer Street Boulevard, from Park Avenue Extension to Wright Street, were selected for such construction, with the State appropriating an amount of $11,000. on condition that the Town appropriate a like amount. This appropriation of $11,000. as the Town's share was approved at the Annual Town Meeting.

Although no actual construction has yet been instituted, due to lack of materials, completion has been planned for 1951.

STREET LIGHTING

The street lighting program has been continued, in accordance with the prevailing practice, in adequately lighting the public and private ways of the Town.

Arrangements have been completed and additional illumination has been provided on Pleasant Street, from the Concord Turnpike to Massachusetts Avenue, and on Medford Street, from Massachusetts Avenue to Mystic Valley Parkway.

Despite the fact that the annual cost of street lighting amounts to more than $70,000., the Boston Edison Company has petitioned the Massachusetts Department of Public Utilities for an increase in rates and installation supplied for this service. A public hearing has been scheduled for the early part of 1951 and if such increase is granted, will amount to a substantial increase for this commodity to the Town.

BOARD OF SURVEY PLANS

The Board, sitting as a Board of Survey, held public hearings and approval was given on the following street and subdivision plans:

Damon Park, from Warren Street to Webster Street
Morningside Drive, form Station 9 + 47 to Station 20 + 0
Melvin Road, from Morningside Drive 122′ southeasterly

ITEMS OF GENERAL INTEREST

At the Annual Town Meeting held in March of 1950, the Planning Board introduced, through a Warrant article, a plan involving a two year study for the widening, reconstruction and construction of streets in Arlington Center which was intended to alleviate traffic congestion in this area. The streets affected were a portion of Mystic Street, Prescott Street, Chestnut Street and the creation of a new way between Massachusetts Avenue, opposite Pleasant Street and the junction of Mystic Street and Summer Street. By the unanimous vote of the Town Meeting, the Joint Board was authorized and empowered to petition the County Commissioners for plans and the estimated cost of such a project. Acting in accordance with such authorization, the Board filed the necessary petitions on June 26, 1950, following an informal hearing attended by the County Commissioners and the Joint Board on Tuesday, June 20, 1950, at which time instructions for such filing were disseminated in accordance with the provisions of the General Laws. Subsequently a public hearing was held at the Robbins Memorial Town Hall on September 26, 1950, at which time the County Commissioners heard all interested parties.

A second hearing, as required by law, has as yet not been scheduled and it appears that such hearing will not be held until the surveys, plans and estimates are completed for this project by the County Engineering staff.

The usual petitions were received from the various utility companies for the location, relocation, alteration and transfer of poles, conduits and mains, including both overhead and underground installations. Hearings were held when required and the necessary orders adopted.

In conclusion, the Board desires to express its deep appreciation to all Town Officials, Boards and departments for their assistance and cooperation throughout the year, with particular reference to the loyalty and conscientiousness displayed by the personnel of this department.

Report of the Town Engineer

To the Honorable Joint Board of Selectmen and Board of Public Works
Town Hall
Arlington, Mass.

Gentlemen:

The following is the annual report of the operations in the Engineering Department for the year ending December 31, 1950.

This department was taxed beyond capacity in 1950 because of the construction of twenty five newly accepted streets, the large number of sewer, water and storm drain main extensions, building applications, lien requests, several takings, benefited area, acceptance and construction plans in addition to an unusual amount of miscellaneous work.

It has been impossible to keep the records and plans of installation of underground structures up to date and we have been delayed in the levying of assessments for various projects because of lack of employees which is due primarily to the low wage scale now in force

It was necessary for the employees of this department to work overtime in order to keep pace with plans and calculations that were absolutely necessary and that could not be delayed until some future date.

The time thus spent amounted on an average of sixty hours per week for the entire year.

Private Engineering Concerns were engaged to assist in carrying on the work and this helped materially but it is a practice that should be avoided because of the heavy expense involved.

I wish to take this opportunity to express my appreciation of the cooperation of the various Board members, Town officials and employees of the Department.

Annexed to this report is a table of general statistics pertaining to the Town and a list of public and private streets as of January 1, 1951.

Respectfully submitted,

JAMES M. KEANE,
Town Engineer.

Report of the Town Counsel

December 31, 1950

Honorable Joint Board of Selectmen
and Board of Public Works,
Robbins Memorial Town Hall
Arlington Massachusetts

Gentlemen:

I herewith submit my report for the year 1950 in compliance with Section 3 of Chapter 3 of the By-Laws of the Town.

There have been seventeen accident claims against the Town this year. One has been settled as authorized by the Selectmen, four have brought suit and twelve are in abeyance. Of the previous year's claims and suits, eight were abandoned by the claimants without suit, one at the time it was reached for trial, and two were settled as authorized by the Selectmen. There were no verdicts against the Town. A case which was tried in 1949, and which resulted in a verdict for the Town, has been appealed by the plaintiff to the Supreme Judicial Court on a question of law, and will probably be argued in 1951.

There are three contract claims against the Town, but no suit has been brought and the Town has denied liability. There are two damage claims on which suit has been brought, having to do with water damage to property. There were eleven claims against third persons for damages to property of the Town and three held over from previous years; nine of these were collected in full and five are pending.

The exceptions of Lillian Y. Rubin taken in the trial of her case for the taking of her land (the so-called Pierce and Winn property) is pending before the Supreme Judicial Court and will probably be argued in 1951.

The position of the Board of Assessors before the Board of Tax Appeals, the Arlington Board of Appeals before the Emergency Housing Commission, and the Inspector of Buildings and Board of Selectmen before the Outdoor Advertising Authority, has been defended.

Substantial amounts of money for aid rendered by the Board of Health and by the Symmes Arlington Hospital have been collected and turned over to the Town Collector.

The Town Counsel has been available at regular meetings of the Board of Selectmen and the Board of Public Works, has rendered opinions as requested by other boards, departments, committees and officers, has attended hearings at State Boards and Commissions, and has been vigilant in all other matters affecting the interests of the Town.

For the kind consideration and cooperation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Board of Public Works, I desire to record my sincere appreciation.

Respectfully submitted,

RUSSELL T. HAMLET,
Town Counsel

Report of the Cemetery Department

January 10, 1951.

Hon. Board of Selectmen,
Arlington, Mass.

Gentlemen:

The report of the Cemetery Commissioners for the year ending December 31, 1950, is herewith submitted.

The Board organized March 8, 1950, with Wathen B. Henderson, chairman, and Mrs. Mabel G. Robinson, clerk.

At the Annual Town Meeting held in March 1950, a portion of the land known as Meadow brook Park was transferred from the Park Department to the Cemetery Department for future cemetery use. During the summer and fall months the debris was cleaned off and the work of grading preparatory to filling for cemetery use was practically completed. Much of the above work outlined was made possible by the cooperation of the Public Works and Park Departments. When this work is finished several acres of valuable land will be added to the property now under the control of the Cemetery Commissioners.

We want to express our appreciation to the Public Works and Park Departments for their assistance. Also the tree warden for help at various times during the year.

There were 307 bodies interred in Mt. Pleasant Cemetery during 1950.

Valuation of Lots and Graves with Perpetual Care $201,611.50.

Following are the amounts received by the Board of Cemetery Commissioners:

Sale of Lots and Graves	$8,022.00
Annual Care	2,607.50
Liners	3,465.00
Foundations	1,173.20
Opening Graves	5,949.00
Miscellaneous	2,062.00
Perpetual Care	9,671.00
Income from Funds	7,028.52

Report of the Planning Board

The Planning Board submits herewith its report for the year ending Dec. 31, 1950.

At the town election of March, 1950, Mr. Harvey C. Abbott and Mr. John O. Parker were re-elected for three year terms. The membership of the Board, therefore, remained the same as during 1949. Mr. Abbott was elected Chairman and Mr. Herbert M. Dutcher Secretary. Mr. Abbott resigned as Chairman on September 12th on account of personal business and was succeeded by Mr. Parker.

The Planning Board continues its representation on the Advanced Programming and Budgeting Committee.

During the year public hearings have been held on the following Zoning By-Law Amendments or Zoning changes, all of which have been inserted in the warrant for the annual Town Meeting.

Article #58—An amendment applying to the location of private garages which was not previously covered in sufficient detail. Adopted.

Article #59—An amendment in three parts, the first change being to provide a more definite wording relative to the set-back requirements for houses, including garages, in the residence A & B districts. This change also clarified the situation with respect to separation distances between buildings in the A, B, C, districts.

The second portion provided for a required parking space in Residence C districts. The third portion also provided for a required parking space for the Residence D district. The entire Article was adopted.

Article #61—This change covered land on Garden Street near Mystic Street from a Residence B to an Industrial district. The owners desired to have this change made so that this land would have the same classification as abutting land and in order that repairs could be made to non-conforming buildings. Adopted by the Town Meeting.

The Planning Board presented its report on the Arlington Center Traffic Study to the Annual Town Meeting. This report was unanimously approved in principle by the Town Meeting and was referred to the Joint Board for necessary action by the County Commissioners. The Commissioners held a public hearing on the plan at the Arlington Town Hall during September. At the time of the writing of this report no decision by the Commissioners has been announced.

The Planning Board has conducted several neighborhood studies for the purpose of ascertaining the most desirable use for available land in the Town.

The Board remains a member of the State Federation of Planning Boards and has maintained its contact with the State Planning Board.

Regular meetings of the Board have been held throughout the year.

The Planing Board wishes to express its appreciation to all of the other Town Boards and Department Heads who have rendered assistance to it during the year.

Respectfully submitted,

JOHN O. PARKER
HERBERT M. DUTCHER
HARVEY C. ABBOTT

Report of the Park Commission

The Board of Park Commissioners herewith submits its report for the year ending December 31, 1950.

At the Annual Town Election held on March 6, 1950, Franklin W. Hurd was elected a member of the Board for a term of three years. We gratefully acknowledge at this time the faithful service on this Board of Daniel A. Purcell who, having served a term of three years, chose to resign his office.

The acquisition of land and building at 33 Ryder Street, pursuant to the directive of our Annual Town Meeting to so acquire, has proved very beneficial by consolidating the administration and operation of our maintenance and recreation program.

RECREATION

The highlight of a series of recreation programs for both young and old this year was our Children's Parade held on August 10, 1950. Approximately one thousand children participated in a parade from Robbins Library to Spy Pond Field, with each playground represented by youngsters dressed in costume depicting a theme for each playground. Over three thousand spectators witnessed a series of specialty and field events conducted at Spy Pond Field. Free ice cream donated by local merchants climaxed a wonderful day for the youth of our community.

In addition to a seven weeks playground program on thirteen areas, this department conducted the following activities:

A restricted Beach Program at Reservoir Beach including daily swimming instruction and two Swim Meets; twenty-two teams in three baseball leagues; an eighteen team Adult Softball League, a 6- team Girls Softball League; two 8-team Men's Bowling Leagues; two 8-team Girls High School Bowling Leagues; Junior and Senior High Tennis classes; a 10-team High School Basketball League; an 8-team Adult Basketball League; a Men's Weekly Gym Class; an Adult Badminton Program; a series of four Outdoor Band Concerts; Square Dancing on a weekly basis in season; a series of Golf Instruction Classes for Adults and supervised Ice Skating Areas illuminated for night activity.

A program of Crafts at the Woodworking Shop of the Junior High West was instituted during the summer as a part of the newly formed Summer Institute. We are greatly indebted to the School Department for making available the shop facilities at this school for this program, and to the staff of the Summer Institute for its assistance and guidance in the conduct of this activity. This program has been continued during the winter months three afternoons per week.

MAINTENANCE AND DEVELOPMENT OF AREAS

All outdoor areas were maintained for individuals and organizations throughout the year. This includes the daily marking of football, baseball, softball and field hockey areas and the use of picnic areas, as required. Flower plots were maintained throughout the Town, stressing as to location strategic entrances to the Town.

The availability of fill from street construction, and the purchase of loam from the Arlington Housing Authority at less than one-half the cost of this material on the open market, assisted immeasurably as far as cost is concerned in the completion of Medford Street Playground and portions of Summer and Thorndike Street Playgrounds. Approximately four acres of land were brought to grade, loamed and seeded. It is interesting to note here that this development was effected exclusively by the use of municipal equipment and labor.

Equipment for children, such as swings, slides, jungle gyms and merry-go-rounds, was installed in areas under our jurisdiction and in playgrounds adjacent to school buildings ,so as to further develop areas in the Town devoted to play activity by our youth.

On June 29, 1950, this Board accepted as completed a Locker and Sanitary Building at North Union Street Playground. This building has proven a desirable asset to this playground through its operation for the above purpose this year. The grounds surrounding this building was beautified this fall.

CONCLUSION

Our development this year would not have been possible without the active support and continuous co-operation of the various Town boards, department heads, their employees and members of this department and to them we express our grateful appreciation.

Our sincere thanks is also extended to those individuals and organizations who so kindly donated awards, trophies, and other assistance in the conduct of our recreation program.

Respectfully submitted,

Annual Report of the Personnel Board

Honorable Board of Selectmen
Robbins Memorial Town Hall
Arlington, Massachusetts

Gentlemen:

The Personnel Board herewith respectfully submits its annual report for the year ending December 31, 1950.

This report covers the first full year of operation of the Personnel Board. During the past year the Board has met twenty five times. Regular scheduled meetings of the Board are held on the first and third Mondays at the Personnel Board office in the Robbins House. During the past year sixty five employees or employee groups met for hearings before the Board on problems relating to their wages and grade status or other personnel matters. Over one hundred requests for reallocations, classifications or salary changes have been considered by the Board. The Personnel Board recognizes some need for salary adjustments, particularly in the administrative and supervisory level. Some inequalities were found to exist in the grade classifications. The Board is recommending certain changes in grade where the evidence and investigations justify such action.

The Board has established a complete file system containing personal record blanks and data for all employees in the town of Arlington except school teachers. A file is maintained for each employee. Job analyses have been made and job descriptions have been written and are on file for all classified groups and positions. The Secretary of the Board has had many conferences with Civil Service officials and town department heads for the purpose of discussing personnel problems. All Civil Service matters, including reallocations, reclassifications, changes of salary and complaints now clear through the Personnel office. Three studies have been inaugurated by the Personnel Board and are under way, a study of over time practices, vacation and sick leave practices. After these studies have been completed, a report with recommendations will be made at a future Town Meeting.

A new revised printed schedule of salary grades and salaries will be presented at the 1951 Town Meeting in March, containing the recommendations which will be made by the Personnel Board and by the special committee to study a bonus plan for town employees.

It is interesting to note that many officials from other communities have come to Arlington for the purpose of studying our personnel setup, many of whom came upon recommendation of well know personnel experts who have become acquainted with the Arlington Plan.

The Board wishes to express its thanks and appreciation to Department Heads for their cooperation during the first year of operation and to all officials and boards for their adherence to the plan as adopted by the Town Meeting.

REPORT OF THE TRUSTEES FOR THE YEAR 1950

To the Citizens of Arlington:

Robbins Library, in the year 1950, has continued to render as full and complete library service as its appropriation would permit. We have been unable to build the staff to its full complement due mainly to the shortage of trained workers available to us.

However, the fact that we have been able to render efficient library service under the circumstances has been due to the effort of the Librarian and to the loyalty of her Staff. The Trustees publicly express appreciation.

The year of 1950 completes the final full year of Mrs. Lucinda F. Spofford's tenure of office as Librarian because of the retirement act in effect in Arlington.

Mrs. Spofford came to Robbins Library January 2, 1928. The years that have followed, twenty-three of them, have been full of problems but her training and experience have been valuable assets in solving them. It is the experience of the present Board, and no doubt of previous ones, that she has maintained an active interest in library progress, modern methods developed in a changing world, and has kept the Board informed of new trends and methods in library activities. Mrs. Spofford is responsible in a large measure for the continued growth of Robbins Library, which has kept pace with the development of the Town and the citizens using its services. It is with sincere regret that her retirement is mandatory but the Board feels that when the Library closes on February 8, 1951, she will at best know that her accomplishments are very much appreciated.

During the summer months the Board spent considerable time interviewing men and women who desired the position of Librarian upon Mrs. Spofford's retirement.

Miss Judith E. Stromdahl, for the past four years Librarian at the Weston, Massachusetts, Public Library, was unanimously selected and she accepted the position to commence her duties on February 9, 1951. Her educational background, practical experience in library work and outside activities that relate thereto, convinced the Board that she will be eminently fitted to carry on the work and traditions of Robbins Library.

Miss M. Helen Teele was a Trustee of the library for nearly twenty-five years until her retirement in 1947. In her will she left a bequest to the Library amounting to $1,000.00 without restrictions. The Trustees voted to use the income for general library purposes.

Under the Will of Miss Ida Robbins the Robbins Art Fund was increased by $27,119.88, a partial payment of the legacy of $30,000.00, the income from the fund to be used in connection with the print collection.

This collection has given the present Board much concern. The income from the bequests, amounting to about $1,800.00 annually, can only be used for the care of the collection and to acquire additional prints. Over past years part of the income has been allowed to accumulate. The Trustees after considerable consideration decided that a survey should be made by some person with knowledge and training in this field. In our research for an authority Mr. Evan Turner was recom-

mended. He was employed and spent a number of months examining, classifying and filing. He presented the Trustees with a detailed report of his study.

In the budget for 1951 we are asking for funds to start a collection of records. There have been requests for this service and reports from other libraries indicate this to be a valuable addition. Also funds have been requested to acquire microfilming equipment, which will permit filming of local newspapers, magazines, and many other records that a library is expected to keep on file.

The report of the Librarian contains detailed information regarding the activities and general condition of the Library.

Respectfully submitted,

WILSON D. CLARK, JR.,
Chairman, Board of Trustees

Report of the Librarian for the Year 1950

To the Trustees of the Robbins Library:

I herewith submit the report of the year ending December 31, 1950:

As has been the case for some time the Library shows an increase in the services of the Library given to the people of Arlington. The Library circulated 262,357 books during the year 1950, an increase of 6,390 over the year 1949. The largest gain was at the East Branch, Dallin Branch second, and the school circulation, third.

WORK WITH JUNIORS

Circulation of children's books for the year in all places was 83,132, a gain of 2,162 over the year 1949.

It is very evident that children as well as adults like their own special place. They all enjoy coming to the 'big library' but do like the Branches near home and enjoy their own school libraries. Miss Phelan has made some interesting comments on the juvenile work. "Several new groups of children have been attracted to the Library through a successful Everyland Club, a series of Picture Book Story Hours, and special book exhibits. Through the opening of two additional school libraries many more children have become library conscious. Parents have been reached as a result of several invitations to lecture to various groups. Associations have been formed with the teachers through the School Libraries, book reports and classroom libraries; a tea for the teachers was arranged during Book Week and helped greatly in furthering relationships with the schools. It has been a year filled with activities and programs which will prove their value as time passes.

"Work with the schools has played an important role in the year's work. Books sent to 26 classrooms total 909, and the circulation of these books was 2,685. Two additional School Libraries were opened, at the Bishop School in May and at the Hardy School in September; there are now five School Libraries having a total book deposit of 3,172 books. The circulation of these books at the School Libraries totaled 13,256. The total school circulation including the classroom deposits and the School Libraries was 15,941, a gain of 1,185 for the year. Young Librarians were selected at each of the schools, and these 40 boys and girls have been instructed in Library procedures. Each month a meeting is held with these children at each school, and further information about library work is disclosed. This fall, when the School Libraries were opened, several classes in some of the schools had their library periods when the Childlren's Librarian was there to explain the library rules to them. Opening the School Libraries in this way had a double advantage because the comprehension of the Young Librarians was put to an actual test, and it was a grand opportunity to meet many children for the first time. Special exhibits have been prepared for the School Libraries. Other school activities include instruction in the preparation of a pamphlet file at the Parmenter School. The elementary school children sent their book reports to the Junior Library to be checked for their reading certificates; a total of 319 certificates were issued during the year.

Many activities and exhibits were planned at the Junior Library throughout the year. The first exhibit of the year was prepared by the 5th grade children at the Parmenter School, and consisted of six small stages depicting scenes from various books. In May, Spring Book Festival was celebrated with special book exhibits. The Everyland Club with its Indian theme attracted 372 children to its 9 club meetings held at the Junior Library during the summer months. The series of Picture Book Story Hours interested many parents who brought their young children to the six programs. The attendance was 126; 80 were children and 46 adults. The regular Story Hour has always been popular and well attended. During the past year, 28 Story Hours were held at the East Branch and were attended by 1,101 children. At the Junior Library 29 Story Hours were attended by 861 boys and girls, a total attendance of 1,962. The programs have been varied by using the record player; during the Christmas holidays, carols were played at the Junior Library. Many fine records have been purchased through the year; there are now 5 albums and 10 single records, some of which are long playing. The children have enjoyed listening to the recordings of

their old favorites, Cinderella, Treasure Island, Pinocchio, Peter Pan and others.

"This fall a group of Girl Scouts have been working for their Reader's Badge. They have been given assignments and library projects. Each day during Book Week two of the girls helped in the Junior Library during the busy afternoons. Book Week exhibits were prepared as usual and classes were invited to the Library.

"In the past year changes have occurred in children's reading interests which reflect various influences. The demand for cowboy stories certainly was greater this year than last, and this Fall there was an abundance of cowboy books for all ages. Indian stories were also popular with girls as well as boys. Older boys have been interested in science fiction and enjoy stories about rocket ships and other planets.

"The movie productions of **Cinderella** and **Treasure Island** caused requests for these books from children incapable of comprehending the vocabulary. A television broadcast of **Tale of Two Cities** had the same result. However, on the whole, it seems that the effect of television has been detrimental, and has disturbed the reading habits. The children follow their favorite programs which take first place before reading and studying. Unfortunately some boys and girls no longer have time for leisure reading, and seem to use the library only when a book report is due. This coming year the challenge to reading will be even greater and will require a different approach to attract children from the glamour of television.

"Another trend in the past year has been an interest in world events reflected in requests for books on Russia and Korea, both non-fiction and fiction. Children have asked for stories about other foreign countries as well, China, particularly. These requests have been readily filled because of the well balanced collection which has always been the tradition of the Junior Library."

HOURS OF THE LIBRARY

BRANCHES

Library borrowers are making use of the Library nearest them. The Branches show increased use. Questions come to the Main Library by telephone and requests to the Branch Library and books are sent by messenger each day, or as soon as available. Changes have been made in the Library hours. Both Branches are open on Saturday mornings. The hours at the East Branch have been doubled since the removal of the Branch to its new location. Both are now open every afternoon, two evenings a week and Saturday all day.

EAST BRANCH

In early March the East Branch was moved from the Crosby School basement where it was established in 1917 to a store at 175A Massachusetts Avenue. This has been justified and will, I am sure, lead to more and renewed efforts on the part of the people of East Arlington for better library facilities that are much needed. For further comments on the work at the Branch I quote from the report of Mrs. Suzanne MacGillivray Molloy who has had charge of the Branch for the greater part of 1949 and all of 1950. "Nineteen fifty marked a very interesting and eventful year for the East Branch and for the read-

ing populace at that end of the town. From the kind words and appreciation of its patrons the bright new Library set in a store has rewarded all efforts and money involved.

"Circulation figures, Story Hour attendance, Registration, and Interchange took on new highs and proved the moving of the Library to its new location to be a most successful endeavor". "Although previous to the time the Library moved to its new home the Branch was open only 3 afternoons and 1 evening a week, the total circulation for the year was 39,755 which was a total gain of 15,941 over the previous year. As a result of its new and favorable location it is quite apparent that more adults have been reached inasmuch as a gain of 11,637 appears in the adult circulation alone. The children's circulation showed a gain of 4,304. It is quite apparent also that the general appeal has not died down in any way when viewing the figures for November alone which were 4,272, the largest month's circulation during the whole year."

Registration figures as well, show a gain over those of last year. A total of 613 new borrowers registered for the year as compared with 235 last year. Many of these people commented on how they were unable to get up to the Main Library, and how the new Branch is so very convenient for them. This figure does not include the many people who have brought out their old cards for renewal in view of the fact that now they will be able to do a 'lot of reading.'

In regards to interchange between the Main Library and the Branch, every effort has been made to fill every request for books that the Branch may not have, in the endeavor to be as helpful as possible. For the year these special requests brought about the preparation of 666 books alone in addition to the more permanent deposits sent down regularly to keep the book collection alive and stimulating. These so called permanent deposits which are in addition to the regular collection belonging to the branch amounted to a total of 1,827 books for the year. All in all the whole process of interchange involved a total of 9,056 books handled between the Main Library and the Branch for the year 1950.

Story Hour for the children showed a successful attendance with a total of 899 children from January to June, and this season so far (from November on) the attendance has amounted to 202 children.

Summer activity brought an outstanding attendance at the Summer Reading Club as well, with the very popular Indian Club idea which constituted the program for this year. At the East Branch the total number of members who joined the club amounted to 82 children, with a total attendance for July and August at 232. The children showed a great deal of enthusiasm in the club and busied themselves this summer with stimulating projects and games.

The technique of displaying books to the public has been successfully brought about by the window displays. Many people have been introduced to the Library because of having seen a certain book in the window. Displays for the year have consisted of Easter exhibits, Paul Revere exhibits, Summer Club activities, the Book Week program, with a 'Carnival of Books' idea which involved a large merry-go-round made of colored construction paper on which were displayed all the new books, and finally a snow scene suited to the Christmas season.

Along with the Book Week celebration 4 classes of third grade children visited the Library to see the new books and learn about the use of the Library and the good care of books."

Some borrowers have made the comment that the Branch quarters were crowded and were looking forward to the time when there would be larger quarters. A large room for Story Hours and Club meetings, a place for the gathering of Adult groups is for future planning.

DALLIN BRANCH

Story hours have been better attended than in previous years. In Book Week 238 pupils visited the Branch with their teachers to browse among the new books, listen to a story or have instruction in the care and use of books.

The circulation shows a gain of 1,211 as compared to 1949. Total circulation was 32,994. One wonders if the small gain of 157 for Juveniles and 1.054 for Adults presents a challenge to teachers, librarians and parents to see that children become more interested in books and reading.

The following is taken from the report of Mrs. Ruth Fuller, Librarian of Dallin Branch: "Invitations to the schools during Book Week resulted in the visits from ten classes with a total of 238 pupils. Two groups of four classes came from St. Anne's School, the other eight classes from the Locke School. The children had an opportunity to look over the new books and other exhibits and for every group either stories were told or book talks given.

"The first Story Hour at the end of Book Week was attended by 60 children. The 1949-1950 season had a total attendance of 348 children at 14 Story Hours.

"Among the exhibitions of the year were one of trout flies and other fishing equipment, a collection of shells given by Mrs. Charles Morton, a display of articles made of colored milkweed by Mrs. Samuel Danforth, and a collection of dolls shown by Miss Phyllis Roberts.

"There were 9,390 books brought by interchange during 1950, 891 more than in 1949, 374 new borrowers were registered."

One of the very pleasant affairs of the year was the gathering on Sunday, February 12th at the Dallin Branch, when the Heights Study Club presented to the Branch Library two stained glass panels in memory of Mrs. Vittoria C. Dallin, founder of the Study Club and for many years an ardent worker with the club, for the fulfillment of their dream of a Branch Library at the Heights. Mrs. Hallam T. Ring, President of the Club, presided. Rev. John Nicol Mark, minister of the Unitarian Church, of which Mrs. Dallin was a member, paid an impressive tribute to Mrs. Dallin. Dr. William Jacques, who designed and made the stained glass panels, unveiled them. One depicts a scene from 'Alice in Wonderland' and the other a scene from 'Tom Sawyer'. Mr. Wilson D. Clark, Jr., chairman of the Board of Trustees of the Robbins Library who accepted the panels on behalf of the Town, paid respect to Mrs. Dallin and her unflagging interest in the Branch Library. The program was arranged by the Study Club with Mrs. Alfred Patterson, Mrs. Herbert A. Snow, and Mrs. J. Howard Hayes in charge, and Mrs. Ervin J. Duschuttle in charge of the tea which followed the dedication.

TO INTEREST OUR PATRONS

The gallery has at all times had exhibits of taste and interest. For a time the Curator of the Robbins Print Collection, Mr. Evan Turner, kept prints of interest in the gallery. Schools have shown their work.

One of the highlights of the season was the Fine Arts Tea held by the Arlington Woman's Club. This was held Sunday afternoon, November 5th and was attended by many guests from surrounding communities. The tea was presented by Mrs. Fred Butler, Art Chairman and her committee; Mrs. Karl Place, Literature and Drama Committee; and Mrs. J. Clark Wyman, Music Chairman. The paintings done by Arlington artists remained in the Library gallery for a month. There were exhibits of hand painted trays, figurines, hand weaving, hooked rugs, and an exhibit of musical instruments made by Arlington musicians. There were books by Arlington authors and an exhibit which included interesting items from the Robbins Library collection. Holidays and birthdays of famous people were acknowledged by appropriate displays. Vacation books and travel folders were arranged to aid people in selecting the vacation spot suited to their taste and pocketbook. Books were collected and loaned for special exhibits.

REFERENCE WORK

As always much work was done on the more or less ephemeral material in the pamphlet file, current material which a library must have ready for reference. Bibliographies were made for several clubs and church groups. Much reference was also done for the Branches. The borrowing of books from other libraries, and the loaning of our books consume much time but is a wonderful cooperative way of filling immediate needs. We borrowed 103 books from 16 different institutions. We loaned 58 books to 13 different libraries. The Library received the loan of 85 books in Italian, German, Russian, American and French from the Division of Public Libraries.

What are some of the things that are done at the Library that take lots of time but the casual person does not think of?

Overdues: why don't people return books on time?

The Library mailed 4,544 letters and postal cards during 1950 for overdue books and magazines. Telephone calls received took time and attention. The Library returned to the Town Treasurer $3,164.36 from fines, damaged books and lost books.

The Library registered 2,338 new people.

This was 333 more than 1949. Reissued 43 cards, surrendered 507, expired 1,310 and change of address 429. 1,131 cards were lost and reissued. Total number of persons now registered 20,186. Borrowers reserved 4,044 books. Through our interchange there were 18,446 books sent to Dallin and East Branches. 300 books were sent to Fire Stations.

HOSPITAL SERVICE

The Library has continued a weekly bedside book service to the patients at the Symmes Hospital. Many friends have contributed magazines. Mrs. Ruth Fuller reports during 1950, 51 calls were made on 2,136 patients. 'Figures, as always, fail to show the results of service. Even patients who do not take books are often very grateful and appreciative of the call. Rarely a visit when patients are not eagerly waiting the opportunity to get something to read'.

BUILDING

At the Main Library the small reading room was redecorated. At the Dallin Branch the window frames were painted. New lighting was installed in the Robbins Print room and a water cooler was placed near the door of the main entrance.

The problem of overcrowding both by people and books is a real one. More space for quiet work and more space for the showing of fine arts books and music is needed. Changes were made at the East Branch with new furnishings.

GIFTS

From the Estate of Miss Ida Robbins a goodly number of French books were received, beautiful art books, and many books which will be of use in the Library collection. A collection of miniatures and small art objects will make displays to attract attention. Friends have been very generous to us in the matter of gift books and periodicals both to the Main Library and the Branches. One of the unusual gifts, one of interest to those who cherish the theatre and seek to know of actors, their plays and costumes, was the bound volumes of 'The Theatre' from 1917-1931, given by Mrs. Franklin Gruber. Many beautiful flowers, magazines and books have come to us, far too many to list. For all these gifts there is a feeling of appreciation.

The Trustees have extended the use of the Library Halls to the many musical, educational and civic organizations. The halls of the Library have been used 270 times during the year. The Dallin Branch Library Hall has been used by two chuch groups when a meeting place was much needed. Once again we begin to feel the impact of war as the Hall in the Main Library is used by the Draft Board.

STAFF

During the past year there have been a few changes in the personnel of the Staff, for which matrimony has been chiefly responsible. Among those, Miss Helen Hovanesian became Mrs. Helen Pahigian, later to follow her husband to Washington, D.C. Miss Suzanne MacGillivray became Mrs. Suzanne Molloy in December. She will continue her work at East Branch. The resignation of Miss Ethel Hawkins was received in December. She leaves to be married. Miss Hawkins has been connected with the Library since December 1945. Miss Jacqueline Miller resigned to take up teaching. Mrs. Elizabeth Epstein joined the Staff in September and Miss Anne DeCamp in October. The Library has been fortunate in having Mrs. Marianna Rowe, a Simmons College graduate, work nearly full time doing reference work and cataloguing; Mrs. Antoinette Brask, also a Simmons College graduate, has continued one day a week doing cataloguing, and the much needed work of a professional assistant. Several of the Staff have and are availing themselves of the opportunity of taking courses in Reference, Cataloguing, and Children's work, in order to qualify for State certificates. Namely these are Miss Helen Whiteman, Miss Marilyn Kenney, and Mrs. Suzanne Molloy. Several members of the Staff have been active in community affairs. Miss Phelan, Children's Librarian, had a part in the Brackett P.T.A. Book Fair and also the Book Fair at Parmenter P.T.A. She has also worked with groups of the Girl Scouts. Mrs. Ruth Fuller gave Book Reviews and instructed in the use of the Library. The members of the Staff have attended State meetings, Book Clinics, Children's Round Table and meetings of Civic organizations.

In this, my last report to the Trustees of the Robbins Library, I wish to express the wish that all of the forward looking plans that have been talked about may materialize in the future. That some may be realized soon, namely—

1. More shelving for present book collection.
2. Microfilming of newspapers.
3. A room devoted to fine arts, books on music, architecture, painting and music scores.
4. A record collection.
5. An East Arlington Branch Library suited to the needs of its community.

My thanks are extended to the Arlington newspapers for their help in Library publicity.

To all of the many patrons who have been appreciative of the Library, I wish to express my thanks.

To all my assistants I wish to express my thanks for their loyal help and for the fine spirit in which they have made adjustments that are necessary in a Library with a small Staff.

To Miss Ruth Sampson who has worked with me all of the twenty-three years I have served the Robbins Library, I express my gratitude for her faithfulness to duty, for her fine spirit and for her ever ready

help. And in this final report I cannot forbear to express my appreciation for the splendid support and friendly personal interest shown by all the Trustees of this Library under whom I have served. To the heartening support and thoughtful guidance of the Trustees, the Library and its public are deeply indebted. Much of the work accomplished is due to their interest and unselfish generous aid.

Respectfully submitted,

LUCINDA F. SPOFFORD,
Head Librarian.

Annual Report of the School Department

REPORT OF THE SCHOOL COMMITTEE FOR THE YEAR 1950

To the Citizens of Arlington:

During this year the School Committee was the recipient of a new building, the Bishop School; an eight-room addition to the Hardy School; and a new gymnasium and auditorium at the Junior High School West. We wish to express our appreciation to the respective building committees for their close cooperation with the school authorities.

Your committee studied the uses of existent buildings with a consulting engineer and as a result will offer special articles to the Town Meeting relating to the old Parmenter School which formerly housed the Junior High Industrial Arts School, the Russell School and the Center Junior High School. We plan to abandon the old Parmenter School. A town committee seeking additional space for town offices met with the School Committee to see if they could suggest utilizing space in the Junior High Center building. This committee inquired of the possibility of the school offices at Maple Street being moved to the Junior High School Center and the Town using the Maple Street building for offices. The School Committee has studied plans for putting its Maintenance Department, now at the High School, in the basement of the Center Junior High School; having the Junior High Industrial Arts School occupy the first floor as it has since this past September; and renovating the second floor for school administrative offices. This move would release some valuable space at the High School and would make the Maple Street offices available to the Town.

Our consulting engineer presented three alternatives for the Russell School: (1) Renovating and modernizing the school, (2) building a new, five-room, one-floor school in the Warren Street area, (3) razing the existing building and erecting a new one at the same site. We plan to discuss these possibilities with the Finance Committee, although the present emergency may cause the elimination of any work on the Russell School.

A survey by the Boston Edison Company confirmed our estimates of the cost of replacing the antiquated lighting in our schools. The total cost would be $80,000. and your committee would like to proportion this work over a four year period. We shall seek the initial appropriation this year.

It is gratifying to have our new buildings and so much renovating completed at this time. We may not be able to do all of the work contemplated for 1951 because of material scarcities, allocations and labor shortages. Never has the outlook been more obscure. However, in war or in peace, we must remember that education is the foundation of our whole democratic structure. Let us hope that children will not be the first casualties of international strain through the neglect of education.

Francis J. Higgins retired from the committee this year after three years of faithful service. He was replaced by Mary K. Boyd.

The committee expresses its appreciation to the following people who retired during the year:

Gertrude B. Bradstreet with twenty-two years of service in the Arlington schools, and at the time of her retirement a teacher of grade six at the Hardy School;

Blanche M. Dow with twenty-two years of service in the Arlington schools, and at the time of her retirement a teacher of grade six in Bishop School;

Arthur E. Robinson with thirty-five years of service in the Arlington schools, and at the time of his retirement the Supervisor of the Manual Arts Department and the Director of the Vocational High School;

Elsie P. Seward with twenty-eight years of service in the Arlington schools, and at the time of her retirement the principal of the Crosby School;

Eugenia C. Peck with twenty-five years of service in the Arlington schools, and at the time of her retirment a teacher of English at the Senior High School;

June E. Simmons with twenty-eight years of service in the Arlington schools, and at the time of her retirement a teacher of grade three in the Parmenter School;

May S. Thatcher with twenty years of service in the Arlington schools, and at the time of her retirement home teacher of children unable to attend school because of physical handicaps.

Each year the Town receives a substantial revenue on account of public schools from the Commonwealth. The amounts for 1950 are as follows:

Maintenance of Arlington Vocational School	$ 12,022.58
Vocational Tuition	968.89
Tuition and Transportation of State Wards	6,470.65
For support of schools in accordance with Chapter 70, Amended 1948, Chapter 643	147,106.67
Total revenue from the Commonwealth	$166,568.79

The entrance age has been raised effective September 1951. A child must be four years of age previous to January first for admission to kindergarten, and five years of age previous to January first for admission to first grade.

The committee expresses its appreciation to the school officials, teachers and employees for their loyal and conscientious efforts. We thank the Town officials, members of boards and departments, and the citizens of the Town for their cooperation.

Respectfully submitted,

JOHN P. MORINE,
Chairman.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS FOR THE YEAR 1950

To the School Committee of Arlington,

Ladies and Gentlemen:

It is my privilege to submit for your consideration the following report of the schools for the year 1950. I am including in my report excerpts from the annual reports submitted to me by various principals and supervisors.

Building Program:

The year 1950 saw the completion of an extensive school building program. The Bishop School in the Morningside area was opened about the first of May. It houses children from the old Russell School district to near capacity of the building. The cost of this building was in excess of $600,000. It has eight classrooms, a large auditorium, an all-purpose room, an extensive health unit, a conference room and excellent office space. It was necessary to keep the Russell School open, both from a housing and a safety angle.

The Junior High School West, remodeled to provide some additional classroom space and a combination gymnasium and assembly hall, was constructed at a cost in excess of $475,000. This addition was available in the fall. The gymnasium is sufficient in size to provide concurrent classes for boys and girls.

An addition to the Hardy School provided four classrooms, two kindergarten rooms, a health unit and a library. These additional facilities were erected at a cost slightly less than $225,000.

State aid to school construction is provided through the School Building Assistance Commission. If the State adheres to this program, Arlington will receive nearly $20,000. a year for a twenty-year period, or an approximate total of $400,000., toward the cost of this extensive school building program.

Financial Policy Changes:

Recent Acts of the Legislature now require that all lunchroom accounts and athletic accounts pass through the office of the Town Treasurer. The law concerning athletics provides that athletic receipts, whether from appropriations or otherwise, shall be deposited with the Town Treasurer to be held in a revolving fund and expended only upon order of the School Committee. The immediate effect of the law is to make it necessary for the School Committee to ask the Town for an appropriation to carry on the interscholastic athletic program in anticipation of receipts from future games.

The Summer Institute:

During the past summer the School Department participated in an original and unique activity which has attracted interest in several communities throughout the country and which has already been reported in the local and Boston press as well as in two educational journals. Reference is made to the Arlington Summer Institute which was organized with funds provided by Mrs. Ruth Hornblower Greenough, daughter of one of our former School Committee members. The School

Department, in cooperation with the Arlington Youth Council, the Park Department and the Boys' Club launched a six-week program (June 26 through August 4) to provide young people in the community with an opportunity to develop their interests in the creative arts beyond that which was normally offered in the schools during the regular school term.

A survey made by the Guidance Department in our schools several years ago revealed that among those pupils from elementary, junior and senior high schools, who remained home during most of the summer there was a dearth of opportunity for the type of constructive activity which they sought. In order to meet this problem and to fulfill interests expressed by these pupils, the Institute provided tuition-free instruction for advanced pupils in original music composition, creative writing and painting. In addition, a summer theater group, an extensive crafts program, a music group for elementary school children and a day camp under the supervision of the Boys Club were established. With the exception of the elementary music group and the day camp all activities were conducted in our own school buildings during the morning hours.

At the conclusion of the six-week period public performances of the plays produced by the summer theater were held over a two-day period and displays of all the other groups were exhibited. The interest of the community in these projects was demonstrated by the large attendance.

In the opinion of your Superintendent the value of the Institute is twofold. It has provided our pupils with an opportunity to do something active and creative during the long summer vacation and it has afforded the School Department an opportunity to join other community organizations to fulfill a demonstrated need for our young people.

Senior High School:

	1950	1949	1948	1940	1932
Total September Enrollment	1387	1461	1559	1910	1390
(Includes Vocational School)	97	89	85	—	—
Number on the Faculty	67	74	73	73	61

The year 1940 had our largest enrollment. Of the sixty-seven members of the present faculty, seven are in the Vocational School of ninety-seven pupils. It appears that in the academic school our pupil-teacher ratio is about the same as in 1932, but the actual class size must be somewhat larger because of the teacher time given to counseling in the Guidance Department.

In a period of increasing enrollments there is a tendency to increase the number of pupils per class before increasing the number of teachers. This results in a decrease in cost per pupil. As enrollment decreases there is a similar tendency to decrease the class size before reducing the number of teachers, with a resulting increase in cost per pupil, although as mentioned last year, the smaller classes that we now have enable the teachers to do more effective work and are in line with policies in neighboring schools of comparably high standing.

The average size of two hundred classes of prepared work is twenty-seven. Classes in domestic and manual arts are limited to twenty by the

size of the rooms. Such work requires individual attention from the teacher so classes are twenty or less. The Vocational School has a still smaller average per teacher. The fourteen typewriting classs average thirty-three.

A report on faculty changes will show progress in decrease in costs with the increase in enrollment. A part-time teacher in the English Department replaced a teacher who retired. Another teacher of English was transferred to the Junior High School East. A language teacher was transferred to the Junior High East, a mathematics teacher to the West and the music instructor to both junior high schools two periods daily. A household arts teacher was assigned to the East two days each week. The decrease in enrollment and the resulting decrease in the number of teachers has enabled us to make more efficient use of available space and to meet needs that of necessity were disregarded during the period of high enrollment. During the past few years the Industrial Arts class has been given a full-sized classroom; a second room has been equipped for Mechanical Drawing; a classroom was converted into a guidance office; a large room has been kept free for use by classes when they show slides, film strips, or educational movies. The Vocational School is meeting an important need in our educational program. It occupies space formerly used by the maintenance department, the supply room an indoor track, the print shop, and the equivalent of about one former classroom. The School properly requires much more space per pupil than academic classes both because of the machines that require space and because the classes are smaller. If additional subjects are added to the automotive, machine shop, and radio training as now given, more rooms will be required. Under present conditions the additional rooms could be taken from the academic classrooms and the maintenance department rooms, but if and when the enrollment increases, it will be difficult, if not impossible, to find space to maintain the school program as it has developed.

The need for adequate facilities for both boys' and girls' physical education and for an adequate assembly hall is well-known and needs no elaboration here. The building problems are mentioned at this time to keep them before the public and to insure their being continued in the plans of the Committee on Advanced Programming and Budgeting. As much as possible of the unused land between Warren A. Peirce Field and Mill Street should be obtained now for development later.

Driver Training in a dual-control car was started as an afternoon activity in January. It has been on a full-time basis since September. The car, furnished by the Charles B. Perham Company, is in almost continuous use when weather permits. Pupils are trained to drive in groups of three. We find that it takes about eight weeks to train a group, meeting for one period a day. The Salesmanship and Consumer Education courses started last year are proving their worth. The decrease in enrollment left room in the typewriting classes so that we could offer it as an elective to college preparatory pupils. The demand for it has been heavy indicating that it meets a need, but it reduces the number of pupils who elect courses such as Art, Music, or Domestic Arts. The unit that we have taught for many years about the State Constitution and Government as part of the course in American History has been amplified to fully comply with the requirements of the recent Act of the Legislature requiring such teaching.

The rules governing the Vocational School will not allow a pupil to take work in the shops unless he takes the complete course in the school. A fifth or more of our pupils need some type of manual work to supplement their academic classes. So far we have met this need by courses in Woodworking and Printing which currently have a total enrollment of one hundred eighty. If either Printing or Woodworking is made a part of the Vocational School, something should be given in its place in the academic school. A general shop would meet a need. It would give pupils a chance to work in a wide variety of projects in metal, plastic, wood or other materials. It would give instruction and practice in caring for a variety of home appliances and mechanical needs. It would be organized to take pupils for varying amounts of time, without formal courses of study, with requirements made to fit individual needs. Major problems would be to find the proper instructor, talented, able and enthusiastic, and to provide space, tools and materials for such a varied program. Its individual aims and a lack of a definite group program makes such a class difficult to administer, but properly handled it is believed that it would contribute a great deal to the development of many of our pupils.

As I write this report the events in Korea, the tension in World politics, and the increased mobilization create problems that will challenge the school in the coming years. An increased emphasis on physical fitness is necessary as mentioned elsewhere in this report. Special courses in preparation for military service may be needed such as Pre-Flight Aeronautics, Shop Mathematics, Blue Print Reading, Map Reading and First Aid. The increase in taxes and in the cost of living consumes the annual increment in many cases and causes acute financial problems, especially among the married teachers with children. Teachers may be called into the service; time given by others to civil defense will cause them to curtail the time they otherwise would spend in preparation for teaching. We have overcome such problems in the past; we will do so again as they arise.

Junior High Schools:

The physical assets of the junior high schools have been drastically modified and modernized. After much study and many meetings, the Junior High School Center was closed and the pupils assigned to Junior High East and Junior High West. The teachers who had been at the Center were assigned to the East and West. Two teachers were assigned to the elementary schools. As a result of this reorganization no new teachers were hired in the junior high schools for the school year 1950-51.

Several changes have been made in the facilities at Junior High School East. By tearing out some partitions and moving others, space was provided for a kitchen and a sizeable cafeteria. Although not completely equipped with permanent furniture, nondescript chairs and tables have been hurriedly brought in and seats are available for all. It is hoped that enough permanent tables may be added next year to complete the seating in permanent fashion. Both Junior East and Junior West operate under the Federal Lunch Program. Each day a hot meal is served, which makes the one-session plan more practical.

At the East the old type tile ceilings which had been installed in the auditorium and gymnasium were declared unsafe and were re-

placed by new ones. Both the auditorium and gymnasium were painted and a stage curtain and window draperies renewed.

At the Junior High West a very modern combination auditorium and gymnasium with showers and offices has been completed and turned over to the School Committee by the Building Committee. An assistant principal has been appointed to each junior high school, thus making the three secondary schools uniform.

Elementary Education:

The highlights of the year in the elementary schools were the opening of the new Bishop School in May and the opening of the Hardy School addition in September. These equally beautiful structures, with their splendid equipment, provide unusual atmosphere for excellent working conditions and every opportunity to carry on an up-to-date educational program. Pupils behave better, show more consideration for others, are more responsible for the proper care of public property and learn more effectively in such attractive surroundings. Parents, pupils, teachers and the entire school personnel connected with these outstanding buildings express keen appreciation for the privilege which is ours.

Due to the teacher shortage on the elementary school level and with the smaller number of graduates coming from the State Teachers' Colleges it has been exceedingly difficult to secure a sufficient number of adequately trained and experienced teachers to maintain a high quality of school experiences for our pupils. Because of the increased demand for teachers many towns, including Arlington, have been willing to temporarily forego any requirement of experience in teaching in elementary grades.

Early in January we interviewed students, who were in the upper quartile of their class and who were to be graduated from a teacher training college in June, with the result that in September several inexperienced teachers entered our elementary grades. These teachers are enthusiastic, cooperative, willing workers and all show promise of becoming strong additions to our teaching staff.

Curriculum construction and revision is a continuous process if our academic program is to be kept abreast of the recent trends and standards in education. During the year tentative courses of study in English and Social Studies were completed and were distributed to the teachers at the opening of school in September.

Considerable emphasis has been placed on the improvement of handwriting in the elementary grades. This study has included talks by experts in the field and a comparative analysis of several high ranking systems of penmanship. The educational publishing companies furnished complimentary sets of pupils' books and teachers' manuals for examination purposes. As this extensive study continued it became evident that it would be wise to place the Zaner-Bloser material on trial in Arlington. In May the company sent a consultant who gave an informational and inspirational talk before all of our elementary teachers. Early in December the company afforded us the services of another consultant for a two-day workshop in penmanship. She spent her entire time during the two days on a program set up to meet our needs which included teaching lessons in individual classrooms, an instructional period with the principals and the supervisor, an after-

school demonstration with second grade pupils one afternoon and a general teachers' meeting on the second afternoon. Both consultants demonstrated innate individual ability complemented by a code of professional ethics and their services were highly beneficial as an aid in introducing the system in a scientific manner.

It is our earnest hope that the penmanship of our Arlington girls and boys will show evidence of the intensive study and of the effort expended on this important phase of their education program.

Report of the Director of Guidance:

The principal aims of the Guidance Department continue to be:

1. The provision of assistance to **all pupils** in order that they may recognize their limitations and potentialities, develop their abilities to the fullest possible extent, and utilize their school and post-school careers;

2. To coordinate the efforts of home, school, and community to assist pupils toward the goals named above.

During the past year **each pupil** in the high school was interviewed several times throughout the year with the purpose of helping him to evaluate his own assets, to provide him with assistance in the choice of high school subjects, and to provide information and assistance with post-high school plans. Whenever it was necessary, achievement, interest, and psychological tests were administered as a means of confirming or providing additional information about individual pupils and their own problems.

In addition, a job placement bureau is provided throughout the twelve months of the year for pupils and graduates. During 1950, 404 pupils and graduates were placed on full-time and part-time jobs. In November 1950, 32.2% of high school pupils were gainfully employed after school hours. They averaged about ten dollars per week and the average working hours per week was about sixteen. As has been pointed out in annual reports of previous years, such part-time work provides valuable job tryout experiences for many pupils.

A 100% follow-up of the Class of 1950 revealed that 47.6% of the graduates are attending schools and colleges full-time, and 46.6% are employed full-time. About 4% entered the armed forces and about 1% were unemployed. At the time of the survey jobs were made available to those who were unemployed, but because these graduates felt that the pay was insufficient, the jobs were refused.

A series of school assemblies have been arranged this year in which experts in their respective fields are invited to participate in panel discussions with provision made for pupils to ask questions. A good deal of the arrangement and planning for these asemblies is being done by the pupils themselves under the supervision of the counselors. Three assesmblies which have already taken place were entitled "Why Plan For the Future?", "How to Choose a School or College," and "How Do I Decide What I Shall Do for a Living?". Subsequent assembly meetings which students may attend on a voluntary basis are:

Opportunities for Men in the Professions
Opportunities for Women in the Professions

Opportunities for High School Graduates in Large Office
Opportunities for High School Graduates in Industry
Opportunities for High School Graduates in the Telephone Company
Nursing
The Bookkeeping and Secretarial Field
The Engineering Profession
Agriculture and Forestry
Advertising and Merchandising
A Preview of the Employment Market for High School Graduates in June 1951
A Preview of Opportunities for Summer Work in 1951.

After experimenting with a number of different methods, we have come to the conclusion that this system of assemblies is the most effective means of imparting occupational information to pupils.

In May 1950, the Guidance Department, as it does each year, sent letters to the employers of the Class of 1949 to determine whether or not Arlington High School students were making satisfactory occupational adjustments. The comments of the employers are helpful in improving the quality of training given in our terminal courses. The response indicated that business men and women appreciate our interest in our graduates and these employers are most anxious to cooperate with the schools. A typical opinion is expressed by the Personnel Director of the Columbian National Life Insurance Company which we quote, "We are always glad to cooperate with you and your staff and feel very keenly that only by frank discussion of our mutual problems can we expect the school to send us those who have training in clerical skills and a desire to learn and perform their job well."

On the basis of the replies received, it may be assumed that Arlington High School students are satisfactory employees. The Supervisor of Employment for the John Hancock Mutual Life Insurance Company states: "We find that the students from your school have worked out very satisfactorily in our organization and that Arlington does a good job of appraising the individuals whom they refer to us for placement."

Employers are in agreement on two major areas for improvement. They do not refer to Arlington students in particular, but rather to beginning workers in general. First, they urge more emphasis on spelling, grammar, punctuation, and basic arithmetic. Secondly, they stress training in punctuality and the importance of good attendance records. Many other suggestions have been made by employers and all of these are being given careful consideration by the High School administration with a view of improving our training of these pupils, particularly in the Commercial Department.

For several years, uniform courses of study for group guidance in grades 7 and 8 have been in the process of revision, and in September 1951, with the cooperation of the junior high school principals, these courses will become a regular part of the 7th and 8th grade curricula. The emphasis in these courses will be in human understanding and mental health.

In the opinion of the Director, pupils in our school system would be more efficiently served if all special services such as guidance, attendance, home visits, special classes, remedial work, testing, and home

bound or physically handicapped pupil services were placed in one department and under a single supervisor. Therefore, it is being recommended that a Division of Pupil Personnel Services be created to include all the above-mentioned departments.

There has been a constant and ever growing need for the establishment of a part-time psychiatric clinic for pupils which would provide therapy for those who are unable to receive such treatment from any of the Greater Boston clinics because of their inadequate services and very long waiting lists. Time and again long postponements have resulted in the development of very serious mental problems among pupils when early treatment would probably have cleared up their difficulties. It is recommended that the services of a psychiatrist and psychiatric social worker be made available to the School Department on a part-time basis.

The Guidance Department has been called upon by the Office of Civil Defense to participate actively in the matter of personnel classification and selection. The ground work in detail for this phase of the program has already been mapped out in the event of a national emergency.

Health and Physical Education:

The physical education program in the Arlington Public Schools during the past year has been one in which the pupil has been the focal point. Many activities of a varied nature have been offered which have contributed to the objectives set forth by the department. These included the physical, social and mental development of pupils and have been partially attained through a broad, well-rounded program.

In the intramural program the range of activities varied with the interests demonstrated by the pupils. The program was based largely upon the activities that were presented in the regular physical education program. In the organization of the intramural program, the physical education instructor of each school organized and directed the program. Junior and senior high school intramurals were held three or four afternoons a week. Elementary school intramurals were held on Saturday mornings. All junior and senior high school gymnasiums were used to the fullest extent.

The school health program in Arlington may be summarized as having three main divisions which include—

A. Healthful School Environment
   1. This implies and provides an environment conducive to the growth, learning and health of its pupils

B. Health Instruction
   1. In the teaching of health, emphasis is directed toward instruction which develops interests and stresses the development of good habits and attitudes as well as the acquisition of knowledge concepts.

C. Health Service
   1. Our health services include and cover a broad area and represent a tremendously important part of the school health program.

a. The purpose of this program is to provide for the child, and all other school personnel, the necessary environment to develop and maintain the maximum physical, mental, emotional and social health, so far as the individual is biologically capable.

Dr. Easter examined 2939 girls and Dr. Foye examined 3203 boys during the year 1949-1950. During the month of May, registration and physical examinations were held for pupils entering school for the first time, either in kindergarten or first grade. Special examinations were arranged during the school year for any pupil participating in strenuous physical activities. All pupils with poor posture were referred to the physical education department. On the basis of the physical health examinations, pupils with postural and functional abnormalities were classified into groups and assigned to small individual corrective physical education classes. Recommendations were made by the school physicians in determining the individual needs for general and specific activity. Evaluation of progress through observations, measurements and consultation will be made twice a year. These records will be available to pupils and parents.

The department may take pride in what is now being done with the limited facilities at the Senior High School. The corrective work uses an athletic locker room with no place to install some needed apparatus. Thre gymnasium locker room is in the basement of the old building; the physical education classes use the unfinished Lowe Auditorium. The inconvenience and the time lost in travel are considerable. The number of showers and lockers is inadequate. The Lowe Auditorium cannot be well heated in cold weather so the program must be limited to active group exercises or transferred to the crowded athletic locker room. We are gradually obtaining some needed apparatus which helps, but we cannot have all that is considered necessary for a modern physical education program in the present housing arrangement. We know that you are quite familiar with these conditions but they are mentioned here in order to keep the need for improved facilities a matter of record.

Adult Education:

With the close of World War II, there came an ever-increasing demand for adult education. People began asking for courses of instruction in the public schools during evening hours. The greatest demand came from home makers who wanted instruction in the practical arts and crafts—sewing, cookery, rug hooking, slip covers, draperies, upholstery and a host of others. It was evident that there existed a great demand for further education at the adult level. In the fall of 1949 the School Committee, having received hundreds of requests, decided to establish an Adult Evening School, to commence in January, 1950. Sewing, rug hooking, leather craft and typewriting were offered. So great was the response that these classes were all filled to capacity the first hour after the doors opened for registration. No further proof was needed to show that there existed a genuine need and desire for adult education.

At the suggestion of the Director, the School Committee agreed to expand the program this fall, to the limit of the funds available and to the extent that proper facilities could be found. It must be noted

here that because of inadequate lighting conditions many of our classrooms are not suitable for evening school use. We are now offering sixty hours of instruction in the following classes:

Subject	Number of Classes	Number Enrolled
Sewing	10	186
Upholstery	2	36
Slip Covers and Draperies	2	42
Rug Hooking	3	46
Furniture Refinishing	2	34
Tray Painting	2	38
Leather Craft	1	20
Cookery	2	28
Starting & Operating Small Business	1	21
Home Mechanics	1	19
Typewriting	2	56
	28	526

All of these, with the exception of Typewriting, have been approved by the State Department of Education, Division of Vocational Education and, therefore, the Town will be reimbursed fifty percent of the salaries of teachers from Federal funds (George-Barden Act) and such other reimbursements as are provided in Section 9, Chapter 74, of the General Laws as amended. In other words, Arlington receives as much money from the Federal Government and from the State funds as it is willing to spend from its own treasury for Adult Education. The per pupil cost to Arlington for an Adult Education program after reimbursements is about $5.00.

In spite of the greatly expanded program we are carrying on this year, there is still a very long waiting list in virtually all subjects. At present we are doing all that can be done with the funds at our disposal and available facilities.

The Vocational School:

The Vocational School of today is succeeding more and more effectively in filling out the educational program of the Public School system. The High School serves its all-important function in providing a general education and in preparing capable students, who have the ambition and the means, to go on to college. However, many do not stop to realize that important as the doctors and other professional and semi-professional elements of our economy may be, a still greater number of trained mechanics and other artisans are vitally essential to the maintenance of our high standard of living.

It is not necessary that the Vocational School shall provide training in a large number of branches in order to be effective. Practice in the various branches of work differs more in detail than in principle, and a truly effective training in one branch may well serve as a useful preparation for many. The important thing is that the training be well planned and presented by instructors of high competence. In accomplishing the latter objective, the Town is fortunate in being able to obtain from the State a large percentage of the funds required for salaries.

Much remains to be done in the development of the school as we are offering instruction in only three trades, but we are prepared to use the Vocational School equipment in training for War Production or Pre-Induction courses if the need arises. With this idea in mind we are planning to extend the present machine shop so as to take over the space now occupied by the print shop. Plans are being made for moving the print shop and the taking over of the printing in the school as a vocational course. Additional funds will be necessary to purchase more equipment in the printing department.

Plans are being developed for the starting of a class in Distributive Education, contact heving been made with the State Department of Education and the Arlington Chamber of Commerce, and it is hoped that such a class may be running next year. The further use of visual aids for instruction is being developed and many films have been brought in from various industrial organizations and used in the classrooms for instructional purposes. We have also used a great many of the 35mm slide films and the instruction has been very satisfactory. A safety program has been inaugurated in the school and the students are working on safety committees. We are planning to operate the school next year on the alternate week plan, having the students spend a full week in shop and the alternate week in the classroom. In the automobile shop, the enrollment is at present nine seniors, ten juniors, and seventeen sophomores, making a total of thirty-six students. The placement of the eleven graduates of last year was 100%. The attendance has been extremely high in the department as the interest is very keen. We are making motor stands for twelve motors, all in running order for us to use with the entering class. We hope to have this completed for use next year. We plan to have four V-8 Engines, four I head engines, and four L head engines. These motors will be used for trouble-shooting and motor tune up work with the entering class. We have installed additional brake equipment and are in a position to do practically any brake job that may come into the shop. We have purchased motor tune up equipment and brought the present equipment up to date. In the evening school we have had a large enrollment and at present there is a long waiting list. The evening pupils, after fundamental training, are working on their cars and we have the men divided up in groups of three. The attendance has been very good and the interest is very high.

In the machine shop we are purchasing a new gas furnace so that heat treatment may be included in the course of instruction. The grinder has been completely overhauled and is now in good running order. We are hoping to expand the present shop so as to take in the space now occupied by the print shop. At the present time we are operating under very crowded conditions and during "open house" night when we had crowds of people we were worried about their safety. The machine shop course in evening school is filled to capacity, and we have a waiting list of young men who are engaged in the machine industry who want to obtain instruction in the use of machines and equipment that they have not had occasion to use.

We have purchased additional equipment in the radio shop and are now better able to carry out the repair work and trouble-shooting with the boys in that shop. We are planning a course in television but we feel that a student, in order to be eligible, must have had two years of training in the radio course or its equivalent. We are planning to

organize and establish an amateur radio station with the necessary transmitting and receiving equipment here at the school. The radio evening course started with a small enrollment but the enrollment has increased and we hope, with more publicity, a larger number of people in the town will avail themselves of this training.

Our Program in Music:

For the past few years song flute instruction has been given in some of the elementary schools. Because of the increased enrollment in the instrumental classes in those schools which have had song flute instruction and because of the musical value gained by the students in these classes, it was deemed advisable to give song flute instruction in all the elementary schools. Consequently, this fall classes were started in all the third grades in seven of the elementary schools and in the fourth grades in the other two elementary schools.

The morale of the High School band has been greatly improved by the acquisition of forty-one new band uniforms. The purchase of these uniforms was made possible by the High School Athletic Association. Naturally, the band membership is governed by the number of uniforms available. Therefore, as more new uniforms are acquired more members can be added to the band.

Two of our musical organizations, composed of fifty-five students, participated in the Massachusetts State Music Festival on May 6 in Melrose. The High School orchestra received ninety-three points for an Honor I (Superior) rating in Class A. The Junior High West orchestra received ninety-two points for an Honor I (Superior) rating in Class D. Of the six orchestras atttending the State Festival two of these were from Arlington.

In the course of the year the department made the usual typical contributions to the school and the community. On January 21 the High School orchestra played for the Dramatic Club's presentation of "You Can't Take It With You." On January 26 the High School orchestra gave a concert at the Town Hall for the Arlington Woman's Club. On March 31 and April 1 the Gilbert and Sullivan Club presented "The Blue Star Broadcast of 1950." On April 19 the High School band played for the Patriots' Day Parade. On May 6 two musical organizations went to the Massachusets State Festival in Melrose. On June 2 the elementary instrumental classes gave their Seventh Anuual Spring Concert at the High School, 250 pupils taking part. On June 6 the High School orchestra and chorus took part in the High School graduation exercises. On June 15 the Industrial Arts Drum and Bugle Corps played at the Industrial Arts Graduation. This fall the High School band played at all the football games, both at home and out of town. On December 21 the Junior High West band and orchestra played for the West Parent-Teachers' Association. On December 22 the High School orchestra and chorus presented two Christmas Assemblies at the High School. In addition the bands, orchestras, and choruses in their respective schools took part in assemblies and school activities throughout the year.

School Cafeterias:

On May 9, 1950, a bill was passed by the Massachusetts State Legislature, effective in ninety days, whereby all monies and receipts of school lunchrooms were to be turned over to the Town Treasurer and

entered into an account to be known as the School Lunch Program. This account is to be used exclusively for school lunch purposes.

The primary reasons for the enactment of the law is to unify the method of handling school lunchroom funds, but its far-reaching effects placed school lunchrooms under the jurisdiction of State and Town laws. All present employees of lunchrooms became subject to Civil Service regulations and future applicants are to be certified from Civil Service lists.

We were disappointed in not being able to open the new lunchroom at Junior High East in September. The necessity for using electricity instead of gas for cooking delayed the opening until November 13. On that day all our hopes and expectations were realized. Our School Committee had planned a very attractive color scheme for the cafeteria, and the kitchen was equipped with the most modern and efficient labor-saving devices. Arlington may well be proud of its newest lunchroom.

We have now two junior high schools and the senior high school participating in the National School Lunch Program which gives a subsidy of eight cents for each hot meal served, and one and one-half cents for each bottle of milk sold, apart from the complete meal.

The hot meal consists of meat, fish, or substitute, potato and one other vegetable, bread and butter sandwich, half a pint of milk, and dessert. This meal costs twenty cents in junior high schools, twenty-five cents in Senior High School. Other foods such as soup, salads, sandwiches and ice cream, are sold à la carte.

The fundamental purpose of the school lunch is to serve the school children a nutritious, appetizing lunch. Protein is the important element in the school lunch, and the two ounces required give the child from one-third to one-half of the protein he needs daily.

We invite the townspeople to see our lunchroom in operation, and we believe that they would find that our children get real enjoyment out of their school lunches.

In conclusion, may I express to the School Committee, to all fellow workers in the department and to other officials, my appreciation for your kind help and support.

Respectfully submitted,

CLIFFORD R. HALL,
Superintendent of Schools.

Report of Tree Warden and Superintendent of the Moth and Town House Grounds Department

January 15,1951

The Honorable Board of Selectmen
Arlington, Massachusetts

Gentlemen:

I herewith submit my annual report as Tree Warden and Superintendent of the Moth and Town House Grounds Departments for the year ending December 31, 1950.

Tree Warden Department

In the Spring of the year, 116 trees were planted in various section of the Town to replace trees that had died or for some other reason had been removed.

A continuation of our program of trimming and raising trees to alleviate obstruction from high delivery trucks and buses traveling along our highways is still in progress. We are having more and more requests each year for trimming and cutting back trees that are growing close to houses and overhanging roofs and porches, so it seems that we must make this a part of our program from year to year.

Public Hearings were held on petitions of property owners for the removal of 19 trees for various reasons and since there were no objections all trees were removed. There were 47 trees ranging from 6 in. to 52 in. in diameter, removed on account of being dead or in a dangerous condition. The Joint Board of Selectmen and Public Works ordered out 3 trees due to construction of new streets.

A severe windstorm of November 25, caused very heavy damage, although we lost only one complete tree which was on Academy Street. Many limbs were broken off and required surgical work to repair them.

Trees were trimmed and removed for the Cemetery, School and Park Departments at the request of the respective Boards and Department Heads.

A new power saw complete with generator was purchased during the past year and it has proved its worth over and over again. It is a great time saver as well as a money saver.

The motor equipment of this Department was used by the Public Works Department during the winter months for snow plowing, snow removal and sanding whenever requested by the Superintendent.

Gypsy and Brown Tail Moth Departments

The regular spraying schedule of this Department was carried on as usual, with extra efforts being made to combat the Dutch Elm Disease. During the past year 3 cases of this disease were found in Arlington

compared with 8,645 in the State. Even though we have few cases in the Town every precaution must be taken so it will not spread. At the present writing there is no known cure for the disease outside of removal of afflicted trees and burning them up. All we can do is continue our sanitary program of trimming dead wood and spraying at the proper time.

The Japanese Beetle continues to be one of our major problems as it is in every community surrounding us, and we are making a concentrated effort to control them.

A very heavy infestation of aphis invaded the Town this year which was due to climatic conditions. This is a very hard insect to control as it requires a nicotine spray and where the infestation covered practically the whole Town, the cost of control was prohibitive.

Poison Ivy spraying was again undertaken this year where it was possible, but there are certain places that are infested that cannot be sprayed because of certain vegetation.

Street trees in most part had to be sprayed in the early morning hours so that heavy traffic could be avoided.

Private estates were sprayed on request of property owners who in turn made a remittance to the Town for the cost of the work.

Menotomy Rocks Park was again sprayed this year by airplane and very favorable results obtained from it.

Town House Grounds

As has been the custom in past years the personnel of the Tree Warden and Moth Departments maintain the grounds bordering the Town Hall and Robbins House.

The regular maintenance of the grounds and shrubbery was attended to as usual. Replacements of some of the plants and trees had to be made in the Spring because of Winter killing.

Due to the Patriot's Day celebration which attracted an enormous crowd of adults and children, the men of the Department had to rope off the entrance to the Hall and police the grounds.

A permanent watchman was employed again this year to patrol the grounds every evening as well as all day Saturdays, Sundays and Holidays.

The bases of the fountains on the front platform of the Hall were planted with flowers again this year as usual and many favorable comments were received about them.

Snow removal from the front platform of the Hall, the walks through the grounds, also the parking areas at the Town Hall and Robbins House comes under the jurisdiction of this Department.

In conclusion, I wish to gratefully acknowledge the co-operation given me by the Board of Selectmen and its staff, the personnel of this Department and all other Departments of the Town.

Respectfully submitted,

GEORGE M. DOLAN,
Tree Warden & Superintendent
of Moth & Town House Grounds
Departments
